

FACTORY AUTOMATION

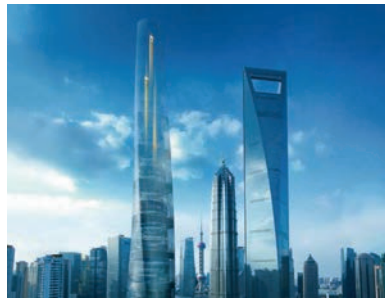

# FA GLOBAL SERVICE

Your Global Partner and Local Friend

## Automating the World

Our Factory Automation business is focused on "Automating the World" to make it a better, more sustainable environment supporting manufacturing and society, celebrating diversity and contributing towards an active and fulfilling role.

Mitsubishi Electric is involved in many areas including the following:

### **Energy and Electric Systems**

A wide range of power and electrical products from generators to large-scale displays.

### **Electronic Devices**

A wide portfolio of cutting-edge semiconductor devices for systems and products.

### **Home Appliance**

Dependable consumer products like air conditioners and home entertainment systems.

### **Information and Communication Systems**

Commercial and consumer-centric equipment, products and systems.

### **Industrial Automation Systems**

Maximizing productivity and efficiency with cutting-edge automation technology.

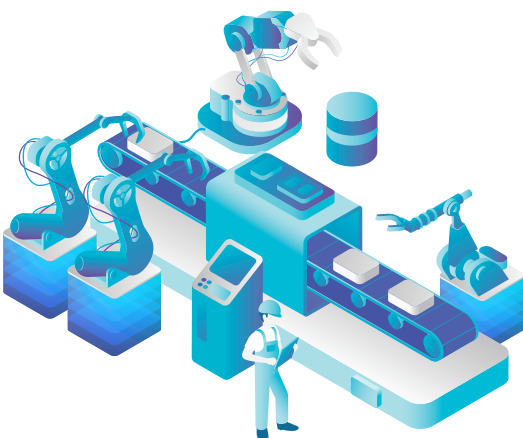

The Mitsubishi Electric Group is actively solving social issues, such as decarbonization and labor shortages, by providing production sites with energy-saving equipment and solutions that utilize automation systems, thereby helping towards a sustainable society.

# With our global service network, Mitsubishi Electric is ready to support our customers who have production bases around the world.

Mitsubishi Electric FA business group is supporting manufacturing not only in Japan but also all over the world. We use various local services to support our customers needs for example; global information service, training schools, field service and local repair, local showrooms, caravan trucks. Please feel free to contact your local Mitsubishi Electric FA office. With FA Centers established in many regions all over the world as core operations, we offer various services to our customers while tightly cooperating with local sales offices, branch offices and agencies.

You can purchase your Mitsubishi Electric FA products in any country and in addition, we will support your global business with repair, training in local language as well as information supply to your local sites.

# Mitsubishi Electric FA Website

Various information and services providing strong support for your business

## Information that applies to my region...

### FA website supports various different regions

Regional FA websites are also available. In addition to globally available products, regional information on local-market products, sales materials, and technical manuals including various local services are also available online.

The "Worldwide" button on the upper right of the homepage provides easy access to each regions local website.

### Information about Mitsubishi Electric FA products...

#### Product information

Our sites provide you with the product information you need to work with Mitsubishi Electric FA products.

### Confirm the wiring and installation dimensions for a device...

#### Downloads

Download a variety of materials such as catalogs, manuals, software, and CAD data.

### Participating in events, learning and experiencing...

#### Events and Seminars

The FA website publishes information about exhibitions, seminars, and showrooms, and provides online factory tours with realistic images and detailed explanations.

### Search about some actual cases where FA equipment was introduced...

#### Industry solutions

Read up on case studies divided by application, such as theme, industry, and process. Our sites can help you to solve your problems and search for the perfect product for your needs.

### Understanding technical terms used in industry...

#### Business support

Our FA glossary includes more than 4,000 technical terms. Use this valuable tool to increase the technical skills of your local staff.

# Training School

Training and education support — in your region and language

How should I train my engineers?

## Training in the local language

"FATEC Training School" provides training using actual equipment, from basic operation to applied programming. Training is held at FA Centers and FA Center Satellites in each country. We offer a selection of training courses to meet your needs, as well

as an on site training service. Our dedicated staff at each location offer instruction in the local language, to assist in the training and education of your engineers.

**Training school locations**  
 China, Korea, Taiwan, Japan, Singapore, Indonesia, Vietnam, Thailand, Malaysia, Philippines, India, U.S.A., Mexico, Brazil, Germany, U.K., Czech Republic, Russia, Poland Turkey and Italy

I want my engineers trained according to their skill level...

## Increase skills with courses divided by level

We offer a total of up to 48 courses\* divided by level, from the basics to advanced applications. Our courses can be used for a wide variety of purposes, from learning about basic equipment information, to supporting individual products.  
 \* Number of supported courses in Japan, number can vary between countries

**Outline of training courses**

<p>■ <b>PLC-related</b></p> <ul style="list-style-type: none"> <li>iQ-R(Q) PLCs</li> <li>iQ-F(FX) PLCs</li> <li>Positioning</li> <li>PLC networks</li> <li>Troubleshooting</li> </ul>	<p>■ <b>HMI-related</b></p> <ul style="list-style-type: none"> <li>GOT2000</li> <li>GOT1000</li> </ul>	<p>■ <b>Servo-related</b></p> <ul style="list-style-type: none"> <li>AC servo basics</li> <li>Motion controllers</li> <li>Troubleshooting</li> </ul>
	<p>■ <b>Inverter-related</b></p> <ul style="list-style-type: none"> <li>Inverter basics</li> <li>Troubleshooting</li> </ul>	<p>■ <b>Robot-related</b></p> <ul style="list-style-type: none"> <li>Robot basics</li> </ul>

The courses listed above are only examples; supported courses may vary by country.  
 \* See P10-11 (or the FA website if within Japan) for more details.

**Satellite training series**

Are you having trouble with training of local staff at overseas factories? We have explaining videos (DVD) and textbooks in seven local languages. You can also watch the explaining videos on YouTube.

[ Japanese, English, Chinese, Thai, Vietnamese, Indonesian, Latin American Spanish (Only Part 2) ]

# Field Service/Repair

Repairs also available locally, no need to wait

1

Service & Support

## GET FAST AND EFFECTIVE REPAIR

I want to request service or repairs at my overseas production facility or delivery site...

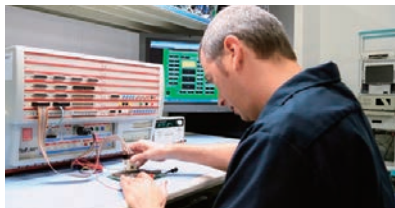

### Consult your nearest FA Center

Mitsubishi Electric has established "FA Centers" around the world, which serve as service bases for FA equipment. Our FA Centers are core operations in each country. Together with our locations worldwide and our local agents, they form a network that supports a variety of services including repairs and consultation.

I want to request repairs but I can't set aside the time for them...

### Repair support also available locally

Our dedicated staff in each FA Center can respond quickly and locally to your repair requests. Our local staff can also provide answers to your technical questions.

# Extended Product Life

Peace of mind with extended warranty and repair support

I want to use the products I purchase without having to worry...

## 3-year warranty\*

You can use our PLCs and HMIs without worry with our free 3-year warranty.

Our free warranty lasts for 3 years from the date of purchase or delivery to your specified location\*2.

\*1: Due to local conditions the warranty period differs in China, please contact our Chinese sales offices (Mitsubishi Electric Automation (China) Ltd.).

\*2: Warranty period is defined by our corporate regulations unless otherwise noted: 42 months from manufacture, including a maximum distribution period of six months after shipment from manufacturing.

I want to keep using a discontinued product a little longer...

## 7-year repair support

We offer repair services for up to 7 years after a product has been discontinued.

(Consumables and some overseas models are excluded.)

We provide a chargeable repair service for seven years after a product has been discontinued. Discontinuation is normally announced through technical bulletins, sales and service teams etc. Typically a discontinued unit is superseded by a newer model; past models will no longer be available.

\*: As the repair services differ depending on the model and the sales office, please contact the sales office.

### Products covered by our 3-year warranty

# Showrooms

Our showrooms allow you to experience the leading edge of FA

I want to see all the latest models...

Introducing the latest technology.

## Showrooms

We have showrooms all over the world.

**Japan (Tokyo)**  
The digital manufacturing area exhibits the latest factory automation equipment and solutions with manufacturing and assembly line demonstrations of smartwatches.

**Japan (Nagoya)**  
We proudly present you with the latest solutions incorporating Mitsubishi Electric FA/Mechatronics products in our showrooms.

**Japan (Fukuyama)**  
e-F@ctory initiatives and introduction of solutions centered on receiving and distribution equipment.

**China (Shenzhen)**  
We offer a multi-purpose facility with open labs and training rooms, in addition to a showroom presenting the latest technologies and solutions.

**Korea (Seoul)**  
Learn about plant visualization using e-F@ctory, and see some examples of how FA equipment has been introduced into actual work sites.

**United States of America (Chicago)**  
In addition to worldwide products, our showroom introduces several products manufactured specifically for the U.S. market.

**Indonesia (Jakarta)**  
Our exhibitions here focus on demonstrating solutions for HVAC, PA, BMS, and E PACK.

**Taiwan (Taipei)**  
In our showroom, you can see, learn and try FA devices in addition to e-F@ctory at one place.

**Thailand (Bangkok)**  
In addition to our innovative products, we also provide FA training center, robot workshop, and vision testing room.

# FA Caravan Trucks

Bringing the latest models to you

I'm interested in the latest models, but I haven't got time to go to the showroom...

## Caravan Trucks

We want more customers to see, touch, and learn about Mitsubishi Electric FA equipment, so we've loaded our "Caravan Trucks" with the latest FA products, and are dispatching our fleet all over the world.

With them we can hold an exhibition in the corner of your parking lot - no need to travel far or reserve a meeting room.

We are looking forward to hearing from you!

## Get your hands on the real thing and give it a try.

Our trucks, loaded with the latest FA equipment, will come and visit you at your office.

We always keep our trucks stocked with the latest FA products allowing you to experience them in person.

# CNC

For customers to use Mitsubishi CNC with confidence, Mitsubishi Electric offers the service from the three points of view : Technical support, Training, and Service parts/repair.

## Mitsubishi CNC Lifecycle Management

For the customers to use their familiar machines for many years, Mitsubishi Electric continues to offer services:

Whenever  
Wherever  
Forever

We provide the best service to support customers' production environment indefinitely

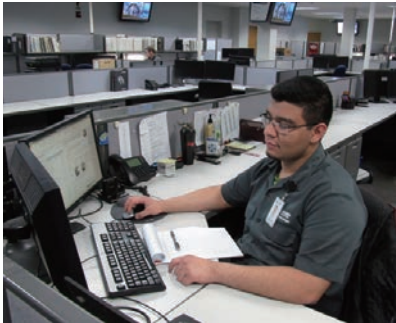

**The Best Partner for Your Success**

# Technical Support -CNC-

Need to know how to cancel CNC alarm immediately!

Our call centers in various regions around the world can support customers quickly.

We have call centers in each overseas base to respond quickly to customers having trouble with the CNC. Our skilled engineers support customers to accurately resolve problems over the phone. We ship out service parts or send field engineers as needed to ensure a timely recovery of your machine.

Need support to recover the machine quickly!

Our field engineer visits customers' site to repair the CNC system.

Our specialists who acquired high skills on CNC system repair visit the site immediately based on the customer's request. We make full use of measuring instruments, etc. to precisely understand the machine state, and then adjust the faulty items or replace the parts. As a result, the machines are recovered quickly

After machine restoration we are also making efforts to prevent machine failures, suggesting preventive solutions by measuring the battery voltage of CNC and drive units and the insulation resistance of motors.

Our call centers and field engineers around the world are working hard day to day to enable our customers to safely use their machines. Please feel free to contact the nearest service center with any tiny issue.

# Service parts/Repair -CNC-

## GET FAST AND EFFECTIVE REPAIR

Restore the broken machine quickly!

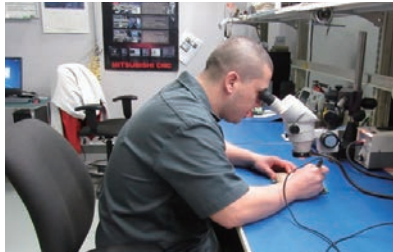

Support the stable running of customers' machines with sufficient spare parts for old and new models in stock.

In case of a sudden machine trouble, our service centers in and outside Japan keep sufficient service parts in stock for obsolete and the latest models. We are well prepared to respond quickly to emergency situations around the world.

The machine I'm using for years has gone wrong...

To ensure long-term use of your machines, our service centers provide repair services worldwide.

Our repair center covers not only the latest CNCs but old and obsolete models. Also the major service centers outside Japan have repair facilities, providing repair services in their regions. There is no need for sending the products back to Japan, which enables us to provide speedy repair services.

In addition to repair, we develop the alternative parts of old series products.

### Example of Replacement

Display

CRT

LCD

Servo drive unit

MR-S2

MR-S12N

Mitsubishi Electric offers various types of services, including parts replacement, pick-up & repair and supply of spare parts, to ensure a long and trouble-free life of your machines.

# Training -CNC-

How should I train my engineers?

Training course at your request

For more effective use of our CNCs, we offer training courses from operation basics, maintenance to part programming in local languages. We can flexibly meet your needs, using our simulators at our service centers, or your own machine at your site. Please ask your nearest Service center for the details.

## Standard Training Menu

---

### Lathe Programing course

CNC operation basics and programming for lathe

### Mill Programing course

CNC operation basics and programming for M/C

### PLC Programing course

PLC development procedures, built-in PLC programming and understanding of PLC I/Fs

### Setup course

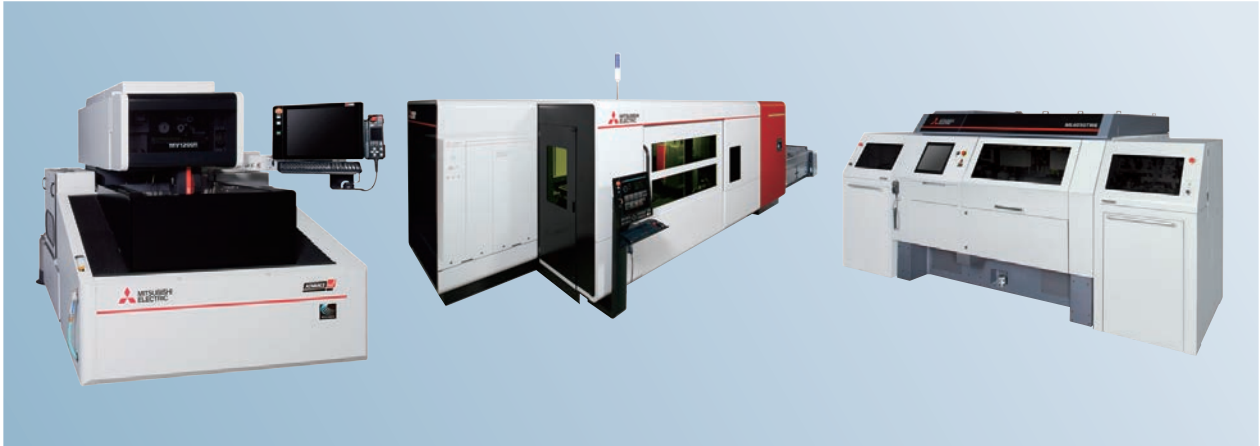

Overview of NC system, and hands-on training with simulators Simulating initial setup from factory default, incl. system data setup, ladder input, system data backup, restoring, and zero initialization

### Maintenance course

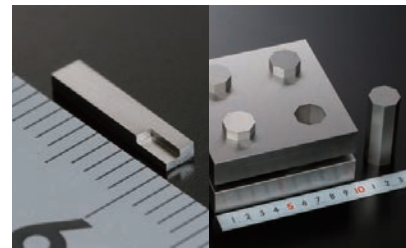

Maintenance training on sequence ladder monitor, troubleshoot and parts replacement methods and preventive maintenance

# Processing machines

We offer worldwide support for Mitsubishi Electric's state-of-the-art Industrial Automation Machinery

Our rich lineup of EDMs cater to diverse processing needs ranging from parts processing to ultra high precision processing. Utilizing our advanced laser technologies, our laser processors deliver high productivity, stability, and low running costs. Service and support of these Industrial Automation Machines is available worldwide through Mitsubishi Electric's extensive global network. Our local staff will provide a prompt response to your various needs from inquiries about processing applications to requests for training and repair.

## Applications

We can propose optimum processing applications to cater to your needs before and/or after installation. If you have any questions about processing applications, please feel free to contact us.

## Showrooms

EDMs, laser processing machines, and various other Mitsubishi Electric mechatronics products are displayed in our showrooms. Our dedicated engineers are always ready to help you.

## Service and Repairs

We offer repair services, dispatch of engineers to the field, replacement parts sales, and technical support in close cooperation with our local distributors. In case of a malfunction, we will promptly assist you to fix the problem.

## Training

We offer wide variety of regular training courses to give engineers the ability to use our products quickly after purchase. We offer basic operations to applied programming using actual products.

## Creating Solutions Together.

Low-voltage Power Distribution Products

Transformers, Med-voltage Distribution Products

Power Monitoring and Energy Saving Products

Power (UPS) and Environmental Products

Compact and Modular Controllers

Servos, Motors and Inverters

Visualization: HMIs

Edge Computing Products

Numerical Control (NC)

Collaborative and Industrial Robots

Processing machines: EDM, Lasers

SCADA, analytics and simulation software

Mitsubishi Electric's product lineup, from various controllers and drives to energy-saving devices and processing machines, all help you to automate your world. They are underpinned by software, innovative data monitoring, and modelling systems supported by advanced industrial networking and Edgecross IT/OT connectivity. Together with a worldwide partner ecosystem, Mitsubishi Electric factory automation (FA) has everything to make IoT and Digital Manufacturing a reality.

With a complete portfolio and comprehensive capabilities that combine synergies with diverse business units, Mitsubishi Electric provides a one-stop approach to how companies can tackle the shift to clean energy and energy conservation, carbon neutrality and sustainability, which are now a universal requirement of factories, buildings, and social infrastructure.

We at Mitsubishi Electric FA are your solution partners waiting to work with you as you take a step toward the realization of sustainable manufacturing and society through the application of automation. Let's automate the world together!

# Global Partner. Local Friend.
