Installation/Uninstallation

■Confirm before installation

• Before installing the software, make sure to read software license agreement. If the software installed, that means accepting the software license agreement. For details on the software license agreement, refer to the following.
📖Laser Displacement Sensor MH11 SettingTool Version 2 Operating Manual [SH-082021ENG-A]
• Log on to the personal computer as an administrator.
• Close all applications running before installation. If the product is installed while other applications are running, it may not operate normally.
• Install the software after changing the settings to prevent starting an update program automatically. The installer may not run normally because the update program of an operating system or other software, such as WindowsUpdate or Java® update, may start automatically.
• When using Windows 8, Windows 8.1, or Windows 10, disable SmartScreen.
• Set the CSV first before outputting the CSV file with a laser displacement sensor MH11 Setting Tool. Otherwise, the output CSV file may not read.
• If the Version1 for laser displacement sensor MH11 Setting Tool has been already installed, the version will be updated.
• Select the same software language as the operating system and system locale. If the software installed with mismatched software language, the software may not operate properly.

■Installation

1. Unzip the compressed file of this product (SW2DNN-MH11ST-M). For details, please consult your local Mitsubishi Electric representative.
2. Double-click "setup.exe" in the unzipped folder.
3. Select the display language for the software which will be installed. The selected language is displayed on the window.
   • Chinese (Simplified)
   • Chinese (Traditional)
   • English (United States)
   • Japanese
   • Korean
4. Read the software license agreement displayed on the first installer window, and check the box "I accept the terms of the license agreement" if accepting the agreement.
5. Select or enter the necessary information by following the on-screen instructions.
6. When the software is installed, EZSocket and e-Manual Viewer are installed at the same time.

■Uninstallation

Uninstall CommDTM for IO-Link and IODD DTM Configurator from the control panel of Windows. When the software is uninstalled, EZSocket and e-Manual Viewer are not uninstalled at the same time. Uninstall them individually.
