

## Mitsubishi Electric Inazawa Works 50th Anniversary

Mitsubishi Electric Inazawa Works celebrated its 50th anniversary on October 1st, 2014. We sincerely appreciate your business with us. Since established in 1964 as a factory that exclusively manufactures elevators and escalators, we have prioritized safety in order to create the finest quality products that meet our customers' needs by combining cutting-edge production systems backed by Mitsubishi Electric's technologies and craftsmanship. We have been involved in groundbreaking projects in more than 90 countries worldwide, and many of the products we have created were the first and the best in the world. Today, we continuously earn customers' trust with our unique development and integrated capabilities, which include maintenance service. Additionally we develop and manufacture systems that improve building management. Inazawa Works keeps striving to create safer and more comfortable spaces.
