Notice:
- In some cases, the elevator information display cannot be installed; for example, in a small elevator car or on a narrow car operating panel. Please consult one of our local agents for details.
- The screen layout shown in this brochure is standard. Please consult our local agents for different screen layouts.
- In full-screen, direction and position indicators may fade into the background depending on the screen image.
- Some fonts are not available. Please consult one of our local agents for details.
- The elevator information display may not be viewable where the ambient brightness exceeds 1000 lux. Therefore, it is not suitable for observation elevators. (Preferable ambient brightness is 1000 lux or less.)
- Content other than elevator information is not included in this product.
