Tokyo, October 30, 2014 – [Mitsubishi Electric Corporation](http://www.MitsubishiElectric.com) (TOKYO: 6503) announced today the difference between its consolidated earnings forecast previously announced on July 30, 2014 and the actual results for the first half of the current fiscal year, from April 1, 2014 ended September 30, 2014. The company has also revised its consolidated earnings forecast for fiscal 2015, from April 1, 2014 ending March 31, 2015.

Income before income taxes and net income attributable to Mitsubishi Electric Corporation also exceeded the previous forecast, owing additionally to increased gain on foreign exchange due to the yen weakening towards the end of the second fiscal quarter. Net sales for the first half of fiscal 2015, meanwhile, fell below the previous forecast due to delays in large projects and other factors.
