Network cameras supporting the Camera recording package

Date of Issue
April 2021
Relevant Models
MELSEC iQ-R series, MELSEC iQ-F series, and MELSEC-Q series

Thank you for your continued support of Mitsubishi Electric programmable controllers. This bulletin describes the network cameras supporting the camera recording package. For the production state of the network cameras, contact each manufacturer.

MITSUBISHI ELECTRIC CORPORATION

[2 / 10]

1 NETWORK CAMERAS SUPPORTING THE CAMERA RECORDING PACKAGE

The following table lists the network cameras that satisfy the interface specifications of the modules manufactured by Mitsubishi Electric Corporation.

Before using the network cameras, confirm that it will not cause system operation problems.

In addition, follow the specifications of the network camera when using it.

Network cameras manufactured by AXIS COMMUNICATIONS

Before using the camera recording package, check that the firmware version of the network camera is 6.50.4.2 or later. (SP Page 6 FIRMWARE VERSION)

*2 The operation has confirmed with the MELSEC iQ-R series CPU module.

2 FIRMWARE VERSION

2.1 Checking the Firmware Version

Checking the version using the dedicated tool

Use AXIS Device Manager to check the firmware version.

Download AXIS Device Manager from the Web site of AXIS COMMUNICATIONS.

www.axis.com/en

Checking the version via the Web browser

Access the camera via the Web browser.

 \bigcirc [Setting] \Rightarrow [System] \Rightarrow [Maintenance]

The specifications of network cameras are subject to change without notice.

For the installation and removal of the network camera and the wiring precautions, refer to the manuals of the network camera to be used.

Before using the network camera, read "Safety Precautions" in the user's manual for Mitsubishi Electric programmable controllers.
