

Before Using the Product

Please read this document before use. Keep the document in a safe place for future reference. Make sure that the end users read the document.

SAFETY PRECAUTIONS

(Read these precautions before using this product.)

Before using this product, please read this manual and the relevant manuals carefully and pay full attention to safety to handle the product correctly. The precautions given in this manual are concerned with this product only. For the safety precautions of the programmable controller system, refer to the user's manual for the CPU module used. In this manual, the safety precautions are classified into two levels: "⚠️ WARNING" and "⚠️ CAUTION".

⚠️ WARNING Indicates that incorrect handling may cause hazardous conditions, resulting in death or severe injury.

⚠️ CAUTION Indicates that incorrect handling may cause hazardous conditions, resulting in minor or moderate injury or property damage.

Under some circumstances, failure to observe the precautions given under "⚠️ CAUTION" may lead to serious consequences. Observe the precautions of both levels because they are important for personal and system safety. Make sure that the end users read this manual and then keep the manual in a safe place for future reference.

[Installation Precautions]

⚠️ WARNING

- Before touching the code reader, be sure to touch an electric conductor such as grounded metal to discharge the static electricity from your body. Otherwise, damage or faulty operation of the code reader may occur.
- Be sure to install the I/O connector module to the main module. If not installed, dust/water-proof performance may not be obtained.

[Security Precautions]

⚠️ WARNING

- To maintain the security (confidentiality, integrity, and availability) of the programmable controller and the system against unauthorized access, denial-of-service (DoS) attacks, computer viruses, and other cyberattacks from external devices via the network, take appropriate measures such as firewalls, virtual private networks (VPNs), and antivirus solutions.

[Installation Precautions]

⚠️ CAUTION

- IP protection rating is guaranteed only when all the connectors are connected with cables or sealed with sealing caps.
- The cable is designed to connect with its key aligned with the keyway of the connector on the code reader. Do not force the connections or damage may occur.

[Wiring Precautions]

⚠️ CAUTION

- Use only 24 VDC and observe the indicated polarity. Otherwise, fire or damage may result.

[Startup and Maintenance Precautions]

⚠️ CAUTION

- Do not clean the code reader with highly irritating or corrosive solvent such as caustic alkali solution, methyl ethyl ketone (MEK), and gasoline. Doing so may cause a fault.

[Disposal Precautions]

⚠️ CAUTION

- When disposing of this product, treat it as industrial waste.

PRÉCAUTIONS DE SÉCURITÉ

(Lisez ces précautions avant d'utiliser ce produit.)

Avant d'utiliser ce produit, veuillez lire attentivement ce manuel ainsi que les manuels appropriés, et porter toute l'attention nécessaire à la sécurité afin de manipuler le produit correctement. Les précautions données dans ce manuel ne concernent que le produit. Pour les précautions de sécurité du système de contrôleur programmable, rendez-vous au manuel d'utilisateur du module CPU utilisé.

Dans ce manuel, les précautions de sécurité sont classées en deux niveaux :

"⚠️ AVERTISSEMENT" et "⚠️ ATTENTION".

⚠️ AVERTISSEMENT Indique qu'une mauvaise manipulation peut créer une situation de danger avec risque de mort ou de blessures graves.

⚠️ ATTENTION Indique qu'une mauvaise manipulation peut créer une situation de danger avec risque de blessures légères ou de gravité moyenne ou risque de dommages matériels.

Dans certaines circonstances, le non-respect des précautions introduites sous "⚠️ ATTENTION" peut avoir des conséquences graves.

Les précautions de ces deux niveaux doivent être observées car elles sont importantes pour la sécurité des personnes et du système.

VEILLEZ À CE QUE LES UTILISATEURS FINAUX LISENT CE MANUEL ET LE CONSERVENT DANS UN ENDROIT SÛR AFIN DE S'Y RÉFÉRER ULTÉRIEUREMENT.

[Précautions d'installation]

⚠️ AVERTISSEMENT

- Avant de toucher le lecteur de code, assurez-vous de toucher un conducteur électrique comme un objet métallique mis à la masse pour décharger l'électricité statique de votre corps. Dans le cas contraire, des dommages ou une défaillance du lecteur de code peuvent se produire.
- Assurez-vous d'installer le module de connecteur E/S au module principal. S'il n'est pas installé, les performances d'étanchéité à l'eau/la poussière risquent de ne pas être obtenues.

[Précautions de sécurité]

⚠️ AVERTISSEMENT

- Pour maintenir la sécurité (confidentialité, intégrité et disponibilité) de l'automate programmable et du système contre les accès non autorisés, les attaques par déni de service (DoS), les virus informatiques et autres cyberattaques d'appareils externes via le réseau, prendre les mesures appropriées telles que la configuration d'un pare-feu ou d'un réseau privé virtuel (VPN), ou l'installation d'un logiciel antivirus sur l'ordinateur.

[Précautions d'installation]

⚠️ ATTENTION

- IP n'est garanti que si tous les connecteurs sont connectés avec des câbles ou scellés avec des joints.
- Le câble est conçu pour être connecté avec sa clé alignée avec la rainure de clavette du connecteur sur le lecteur de code. N'essayez pas de forcer les connexions, sinon des dommages peuvent se produire.

[Précautions de câblage]

⚠️ ATTENTION

- Utilisez seulement 24 V CC et respectez la polarité indiquée. Dans le cas contraire, cela peut provoquer un incendie ou des dommages.

[Précautions de mise en service et de maintenance]

⚠️ ATTENTION

- Ne nettoyez pas le lecteur de code avec des solvants très irritants ou corrosifs tels qu'une solution alcaline caustique, la cétone méthyl-éthylique (MEK), et de l'essence. Le non-respect de cette consigne pourrait provoquer une défaillance.

[Précautions de mise au rebut]

⚠️ ATTENTION

- Lors de sa mise au rebut, ce produit doit être traité comme un déchet industriel.

PRECAUTIONS FOR USE

Observe the following precautions when installing and operating the code reader, to reduce the risk of injury or equipment damage:

- The power for this product is intended to be supplied by NEC class 2 or LPS (Limited Power Source). Any other voltage creates a risk of fire or shock and can damage the components. Applicable national and local wiring standards and rules must be followed.
- To reduce the risk of damage or malfunction due to over-voltage, line noise, electrostatic discharge (ESD), power surges, or other irregularities in the power supply, route all cables away from high-voltage power sources.
- A code reader does not contain user-serviceable parts. Do not make electrical or mechanical modifications to a code reader.
- Unauthorized modifications may void your warranty.
- Changes or modifications not expressly approved by the party responsible for regulatory compliance could void the user's authority to operate the equipment.
- If the bend radius or service loop is smaller than 10 times of the cable diameter, the cable may cause cable shielding degradation, cable damage, or wear out in a short period. The bend radius must begin at least 152.4 mm from the connector.
- Use this product in accordance with the relevant manuals.
- To maintain the safety of the system against unauthorized access from external devices via the network, take appropriate measures.

CONDITIONS OF USE FOR THE PRODUCT

(1) This code reader shall be used in conditions:

- where any problem, fault or failure occurring in the code reader, if any, shall not lead to any major or serious accident; and
 - where the backup and fail-safe function are systematically or automatically provided outside of the code reader for the case of any problem, fault or failure occurring in the code reader.
- (2) This code reader has been designed and manufactured for the purpose of being used in general industries. MITSUBISHI ELECTRIC SHALL HAVE NO RESPONSIBILITY OR LIABILITY (INCLUDING, BUT NOT LIMITED TO ANY AND ALL RESPONSIBILITY OR LIABILITY BASED ON CONTRACT, WARRANTY, TORT, PRODUCT LIABILITY) FOR ANY INJURY OR DEATH TO PERSONS OR LOSS OR DAMAGE TO PROPERTY CAUSED BY THIS CODE READER THAT ARE OPERATED OR USED IN APPLICATION NOT INTENDED OR EXCLUDED BY INSTRUCTIONS, PRECAUTIONS, OR WARNING CONTAINED IN MITSUBISHI ELECTRIC USER'S, INSTRUCTION AND/OR SAFETY MANUALS, TECHNICAL BULLETINS AND GUIDELINES FOR THE CODE READER. ("Prohibited Application")

Prohibited Applications include, but not limited to, the use of the code reader in;

- Nuclear Power Plants and any other power plants operated by Power companies, and/or any other cases in which the public could be affected if any problem or fault occurs in the code reader.
- Railway companies or Public service purposes, and/or any other cases in which establishment of a special quality assurance system is required by the Purchaser or End User.
- Aircraft or Aerospace, Medical applications, Train equipment, transport equipment such as Elevator and Escalator, Incineration and Fuel devices, Vehicles, Manned transportation, Equipment for Recreation and Amusement, and Safety devices, handling of Nuclear or Hazardous Materials or Chemicals, Mining and Drilling, and/or other applications where there is a significant risk of injury to the public or property.

Notwithstanding the above restrictions, Mitsubishi Electric may in its sole discretion, authorize use of the code reader in one or more of the Prohibited Applications, provided that the usage of the code reader is limited only for the specific applications agreed to by Mitsubishi Electric and provided further that no special quality assurance or fail-safe, redundant or other safety features which exceed the general specifications of the code readers are required. For details, please contact the Mitsubishi Electric representative in your region.

- (3) Mitsubishi Electric shall have no responsibility or liability for any problems involving code reader trouble and system trouble caused by DoS attacks, unauthorized access, computer viruses, and other cyberattacks.

1. Relevant manuals

Details of the product are also described in the manual shown below (sold separately). Please read the manual and understand the functions and performance of the product to use it correctly.

- Code Reader CF26 User's Manual SH-082092ENG(13JX0C)
- Code Reader CF37 User's Manual SH-082325ENG(13JX4C)
- Code Reader Connection Guide BCN-P5999-1074

2. Packing list

Check that the following items are included in the package.

Item	Quantity
Module	1
"Before Using the Product" (this document)	1

3. Operating ambient temperature

Use the module in the ambient temperatures of 0 to 40°C.

3. Température ambiante de fonctionnement

Utiliser le module avec une température ambiante entre 0 et 40°C.
