Please note that screen displays or part of operation may be different on smartphones as the descriptions of screen displays and features in this material are based on those for PCs.
The screenshot below shows the top page of the site. By pressing "Start" button in the middle of the screen, you can move to the next page.
After the "Loading" page appears on the screen, the loading of the content starts (about 10 seconds). Then, a user's guide shown below will be displayed on the screen. Please click anywhere on the screen to move on to the main (text) pages of the site.

● A screen display to show how to use a mouse wheel

● A screen display to show the features of each button
Events are shown in the chronological order from top to bottom of the screen. When browsing on a PC, you can use a mouse wheel to scroll the screen.
The Thumbnail View can be switched between 3D and 2D displays.

The basic user's guide to the site will be displayed.

Using this button, events to be shown can be narrowed down by specifying categories, years, or keywords.

By moving the position indicator on the timeline scale bar, you can shortcut to events in the year of your choice.

Events in the company history. For articles with a "More Detail" button, by clicking the button, detailed information will be displayed.

This button allows the menu page to open, through which various information is available, including the user's guide to the site and recommended environment.

This button closes the content and takes you back to the title page.
Events in our history are displayed in the chronological order from front to back. You will find newer events behind older ones. By using the mouse wheel, or upward/downward arrows at the right-hand bottom corner of the screen, events to be shown in front can be changed.
Years in red and events connected to them with a red line represent Mitsubishi Electric's history. Titles in black boxes (with an image) represent world events that happened in the same years.
The Thumbnail View can be switched between 3D and 2D displays.

The basic user's guide to the site will be displayed.

Events to be shown can be narrowed down by specifying categories, years, or keywords.

By moving the position indicator on the timeline scale bar, you can shortcut to events in the year of your choice.

Events in the company history. For articles with a "More Detail" button, clicking the button will display detailed information.

This indicates a world event that happened in the same year.

This button allows the menu page to open, through which various information is available, including the user's guide to the site and recommended environment.

By clicking the upward arrow, you can move forward in the timeline, while by clicking the downward arrow, you can move back in the timeline.

This button closes the content and takes you back to the title page.
In articles with a "More Detail" button, by clicking the button, you can view detailed information as shown below.

Having established "Service through Quality" as our corporate motto in 1952, Mitsubishi Electric continues to see the spirit of "quality first" as a key component of customer satisfaction. One of the results of our efforts to put quality first was winning the Deming Application Prize in 1956. The prize, sponsored by the Union of Japanese Scientists and Engineers (JUSE), was given in recognition of our progress on total quality management (TQM). In addition, a person associated with the Mitsubishi Electric Group won the Deming Prize for Individuals in 1961.
This button takes you to the Thumbnail View.
*Alternatively, you can return to the Thumbnail View by clicking anywhere on the screen.

These buttons take you to detailed information either before or after the year.

Detailed information on the event will be shown. For some events, links are available to websites that introduce you to relevant products and services, which further provide you with more details.

This button closes the content and takes you back to the title page.
By clicking a "Filter" button on the left-hand side of the screen, a red window as shown in the screenshot below appears, which enables you to specify filter criteria.
This tab enables you to switch between filtering by criteria (choosing event categories and years) and by keywords (specifying character strings).

By entering letters here, you can filter events that include the specific strings of letters.

You can choose whether to filter events that include the entered letters above in "headlines only" or "either headlines or text."

This button takes you to the Thumbnail View that reflects keywords entered (specified criteria).

This button clears the keywords entered (specified criteria).
This tab enables you to switch between filtering by criteria (choosing event categories and years) and by keywords (specifying character strings).

By specifying the categories of events, you can view only events that belong to the chosen categories (multiple choices allowed).

By specifying the years, you can display only events that happened in the chosen years (range specification possible).

This button takes you to the Thumbnail View that reflects the specified criteria.

This button clears the criteria chosen.
