

# A Global, Leading Green Company That Contributes to the Realization of a Prosperous Society.

As the Mitsubishi Electric Group comes closer to celebrating in fiscal 2021 the 100th anniversary of our founding, we will contribute to the realization of a prosperous society as a global, leading green company.

By “realization of a prosperous society,” we mean creating a “people-friendly” society where everyone can live their lives in safety, peace of mind, health, and comfort—and at the same time an “earth-friendly” society that reduces impact to the environment by advancing the efficient use and reuse of resources and energy.

We of the Mitsubishi Electric Group have come to provide cutting-edge technologies and diverse businesses globally, and on a broad scale of applications ranging from homes, offices, and factories to social infrastructure and outer space.

“To pave the way to a better and brighter tomorrow”— this will be our mindset for future efforts as we increase collaboration within the Group and continually challenge ourselves to innovate.

***Changes for the Better***
