

CSR Management

Principles of CSR

The Mitsubishi Electric Group regards its corporate social responsibility (CSR) initiatives as the foundation of its corporate management, and upholds its Corporate Mission and Seven Guiding Principles as the basic policies of its CSR. Particularly with respect to initiatives related to ethics and legal compliance, Group-wide efforts are made to enforce measures such as enhancing training and strengthening internal controls. Active measures are also taken to ensure and improve quality assurance, environmental preservation activities, philanthropic activities, and communication with stakeholders.

By engaging in corporate activities based on a management plan and implementing ongoing improvement activities related to CSR and key performance indicators (KPI) based on the PDCA approach, we will contribute toward creating an affluent society.

Promotional System for CSR

The policies and planning for the CSR activities of the Mitsubishi Electric Group are decided by a CSR Committee appointed by Mitsubishi Electric's executive officers. The Committee is composed of the heads of Mitsubishi Electric's management departments (19 members in charge of environmental, social and governance aspects from divisions such as Corporate Strategic Planning and Corporate Human Resources), and discusses the results of activities performed during the previous fiscal year, decisions on future activity plans, and responses to law amendments, from a perspective that spans the entire Mitsubishi Electric Group.

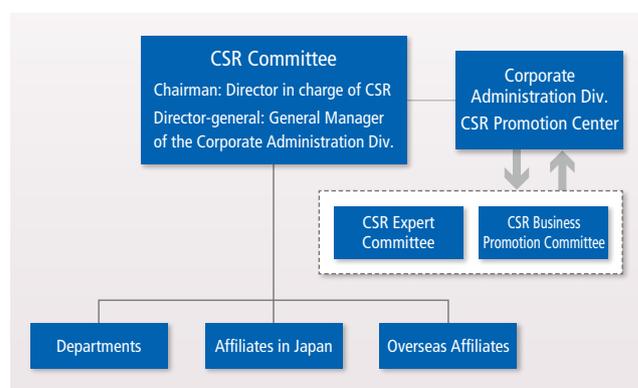

Knowing that CSR activities are directly linked to corporate management, each department responsible for ethics and legal compliance, quality assurance and improvement, environmental conservation and philanthropy activities, and communication with stakeholders implements their own initiatives, based on the CSR policy of the Mitsubishi Electric Group.

In addition to the CSR Committee that is generally held once a year, various activities are also promoted and implemented in communication with the CSR Expert Committee and CSR Business Promotion Committee, which are convened as a forum for sharing and executing the policies and plans established by the CSR Committee.

Main agenda of the CSR Committee (held in April 2018)

- Report on achievements made in the previous fiscal year and activities planned in the current fiscal year
- Responses to the sustainable development goals (SDGs*)
- Responses to ESG (environment, society, governance) investment
- Human rights initiatives
- Supply chain management

* The Sustainable Development Goals (SDGs) comprise a set of targets adopted by the U.N. General Assembly in 2015 as part of an action plan to be accomplished by 2030 that would end poverty, protect the planet, and ensure prosperity for all.

Initiatives related to the SDGs

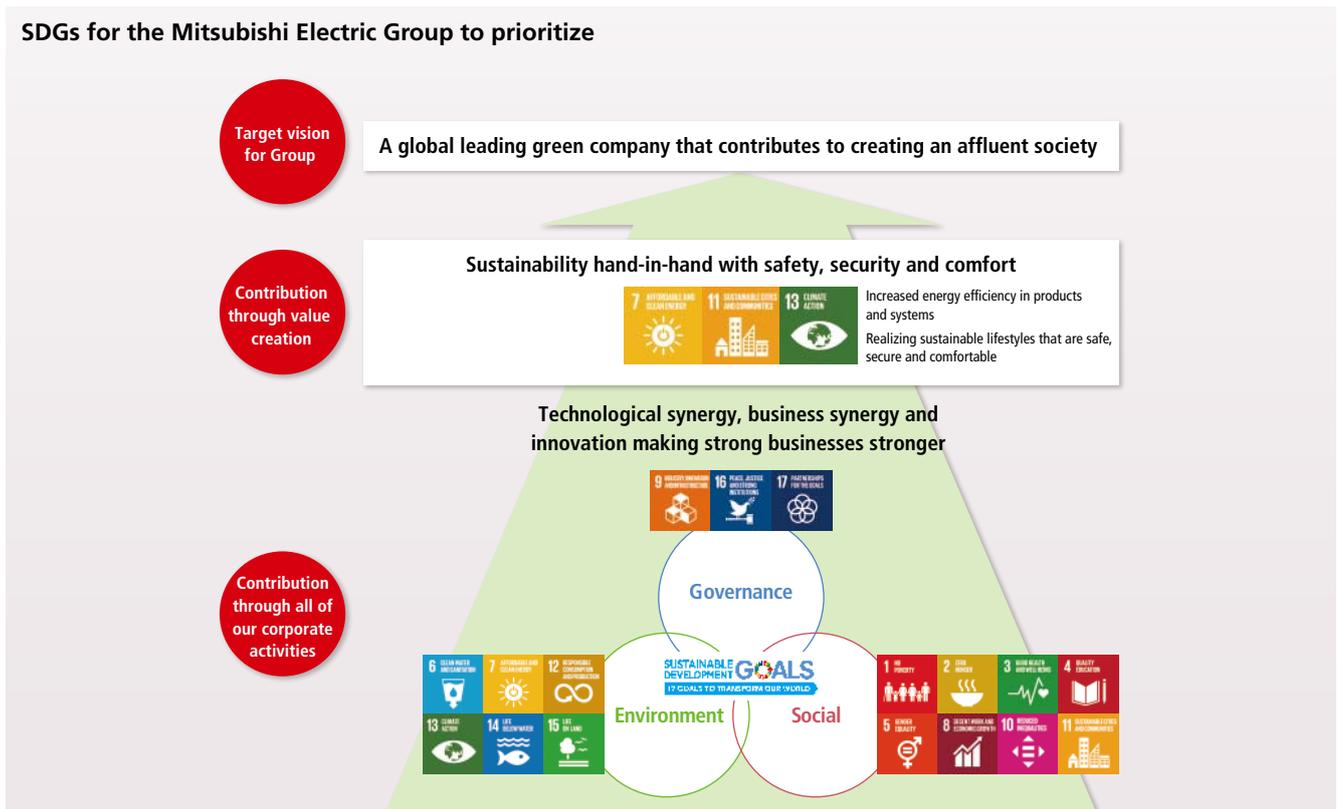

Through our numerous businesses and the entirety of our corporate activities, including environment, society and governance (ESG)-related activities, the Mitsubishi Electric Group is playing its part in achieving the 17 SDGs.

At the same time, we believe we need to define specific fields and focus our efforts to further contribute to attaining the SDGs. Goal 7, "Affordable and clean energy," Goal 11, "Sustainable cities and communities," and Goal 13, "Climate action," are areas where we can apply our strengths as a comprehensive electrical

and electronic manufacturer, and are consistent with the nature of the company we are aiming to become. We will contribute even more to achieving the SDGs by creating value in these areas via technological and business synergy, prioritizing the initiatives we advance.

Into the future, the Mitsubishi Electric Group will integrate the concept of the SDGs with our management direction, and continue to advance initiatives related to the SDGs.

SDGs for the Mitsubishi Electric Group to prioritize

Initiatives / External Evaluation

In May 2018, the Mitsubishi Electric Group signed the United Nations Global Compact (UNGC) aimed at promoting CSR activities based on international norms.

Mitsubishi Electric has once again in fiscal 2018 been named to the A List Companies, the highest ranking given by the international non-governmental organization CDP, in recognition of its environmental initiatives in the three categories of "Climate Change," "Water" and "Supply Chain" for the second consecutive year following fiscal 2017.

In addition, Mitsubishi Electric is included in a number of ESG-centered stock indices.
