

Results of main initiatives in fiscal 2019

Reducing CO₂ from Production

We will push forward with reductions in CO₂ from production (CO₂ originating from energy), as well as reducing non-CO₂ greenhouse gases (SF₆, HFC, and PFC).

FY2021 target Total emission of greenhouse gases from production (CO₂ equivalent) **1.47 million tons or less**

Results: FY2019 **1.30 million tons**

Effective Utilization of Resources

We will promote thorough waste separation, recycling, and greater efficiency of waste collection and transport in order to reduce final waste disposal.

FY2021 target Final disposal rate in Japan Less than **0.1%**
Final disposal rate overseas Less than **0.5%**

Results: FY2019 Less than **0.1%** for Mitsubishi Electric and domestic affiliates **0.52%** for overseas affiliates

Nature Conservation Activities

We will continue to hold Mitsubishi Electric Outdoor Classrooms and proceed with the "Satoyama" Woodland Preservation Project.

FY2021 target The cumulative number of participants in Mitsubishi Electric Outdoor Classrooms and the "Satoyama" Woodland Preservation Project.

Results: FY2019 **43,000 participants**

Promote human rights initiatives that are based on international norms

We will identify and evaluate impacts on human rights across the Group.

Human rights impact assessment

Results: FY2019 Achieve a **100%** rate of implementation by target companies

Contribution to Reducing CO₂ from Product Usage

We will help reduce CO₂ emissions through reducing the electricity consumed by customers during product use.

FY2021 target Reducing CO₂ emissions from product usage by an average of **35%** compared to use in fiscal 2001

Results: FY2019 **36% reduction**

Reducing Resource Inputs

We will reduce the use of resources (resource inputs) as a measure towards creating a recycling-based society.

FY2021 target Reduce resource inputs by an average of **40%** compared to fiscal 2001

Results: FY2019 **45% reduction**

Product development that places top priority on customer safety

We will ensure safety through risk assessment and implement product development that places top priority on customer safety.

Risk assessments of target home electronic products

Results: FY2019 Maintain **100%** implementation

Compliance training on a continuous basis

We provide compliance education that utilizes diverse methods, on a continuous basis.

Mitsubishi Electric's e-learning programs on compliance

Results: FY2019 Maintained a **100%** attendance rate
