

We, the Mitsubishi Electric Group will contribute to realizing sustainability through all of our activities, and further enhance corporate value that emphasizes the creation of both economic and social value.

On February 1, 2021, we celebrated the 100th anniversary of our founding. We have included our commitment to realize sustainability through all of our activities, in our corporate management policy that balances growth and profitability/efficiency, and soundness, we have started taking steps toward the next 100 years.

We will provide integrated solutions that only we can provide to address diversifying social challenges, in the four fields of Life, Industry, Infrastructure and Mobility, uniting all the capabilities inside and outside the Group. In doing so, we will further promote initiatives to create values for the achievement of a sustainable society.
