**Mitsubishi Electric Hydronics & IT Cooling Systems
Invests in South African Sales and Services Company**

Strengthening one-stop services to capture growing local demand for data center cooling solutions

TOKYO, October 27, 2025 – [Mitsubishi Electric Corporation](#) (TOKYO: 6503) announced today that its wholly owned subsidiary Mitsubishi Electric Hydronics & IT Cooling Systems S.p.A. (MEHITS), headquartered in Bassano, Italian Republic, has acquired a stake in Intramech Pty Ltd., a Republic of South Africa company specializing in sales and services for applied HVAC* and IT cooling systems.

By deepening its relationship with Intramech, a company with strengths in sales, service and engineering in southern Africa, Mitsubishi Electric expects to expand both companies' know-how as well as enhance its own one-stop service capabilities for applied HVAC and IT cooling systems. In combining Mitsubishi Electric's product lineup with Intramech's know-how and local capabilities, the two companies will complement each other's expertise in maintenance services, equipment engineering and system integration. Together, they will offer one-stop services, including design-related technical support, sales, installation, operation and maintenance, across southern Africa.

Data center construction is increasing worldwide, including in Africa, leading to a growing demand for IT cooling. Operators of data centers are increasingly demanding comprehensive services for cooling equipment, including installation, operation and maintenance.

The new partnerships will allow Mitsubishi Electric to strengthen its presence in southern Africa to deliver more comprehensive customer support and better meet the demand for applied HVAC and IT cooling system solutions, which is forecast to grow significantly in the regional market.

* Industrial and other large-scale air conditioning systems custom-designed to meet specific customer requirements.

Intramech Pty Ltd.

Business	Sales, installation, operation, and maintenance services of applied HVAC and IT cooling systems
Location	Cape Town, Republic of South Africa
Established	2007
URL	https://www.intramech.co.za

Mitsubishi Electric Hydronics & IT Cooling Systems S.p.A.

About Mitsubishi Electric Hydronics & IT Cooling Systems S.p.A.

Mitsubishi Electric Hydronics & IT Cooling Systems S.p.A. (MEHITS) is a subsidiary of Mitsubishi Electric Corporation and serves as the strategic core of Mitsubishi Electric's HVAC (heating, ventilation, and air conditioning) systems business, which the company has positioned as a key growth area. Originally established as DeLclima S.p.A., a leading Italian commercial air conditioning company that Mitsubishi Electric acquired in 2016 and renamed MEHITS in 2017, the company has been expanding its product lineup in the European chiller market, where demand is strong. MEHITS designs, manufactures and sells applied HVAC systems for large-scale facilities worldwide. It operates a one-stop service framework that includes technical design support, sales, installation, operation and maintenance. While primarily focused on the European market, MEHITS uses its R&D and production bases in Italy, France, India, Vietnam and China to support operations in over 140 countries.
