Mitsubishi Electric Signs MoU with Hon Hai Precision Industry for Global Alliance in AI Data Center Solutions

Will globally supply highly efficient and reliable AI data center solutions

From left: Young Liu, Chairman, Hon Hai Precision Industry; Kei Uruma, President & CEO, Mitsubishi Electric

TOKYO, November 6, 2025 – [Mitsubishi Electric Corporation](#) (TOKYO: 6503) announced today that it has signed a memorandum of understanding (MoU) with Hon Hai Precision Industry Co., Ltd. (Foxconn) to form an alliance in globally supplying AI data center solutions.

Based on the MoU, Mitsubishi Electric and Hon Hai Precision Industry will leverage their knowhows and networks to comprehensively work together to supply energy efficient, highly reliable and competitive solutions to AI data centers around the world, which will contribute to realizing a circular economy and solving other social issues.

Going forward in their steps to address social issues and achieve sustainability, the two companies will also seek to share their expertise to jointly create new values, solutions and business models outside the scope of AI data centers.

About Hon Hai Precision Industry Co., Ltd.

Hong Hai Precision Industry is one of the core companies of Hong Hai Technology Group. Established in 1974 in Taiwan, Hon Hai Technology Group (“Foxconn”) (TWSE:2317) is the world’s largest electronics manufacturer and leading technological solutions provider, ranking 28th among the Fortune Global 500. In 2024, revenue totaled TWD6.86 trillion (approx. USD208 billion). The Group’s market share in electronics manufacturing services (EMS) exceeds 40%. The Group operates over 230 campuses across 24 countries and is one of the world’s largest employers with approx. 900,000 employees during peak manufacturing season. The Group has expanded its capabilities into the development of electric vehicles, digital health, and robotics, and three key technologies – artificial intelligence, semiconductors and next-generation communications technology. Pulling it together with its three intelligent platforms – Smart Manufacturing, Smart EV, Smart City – the “3+3+3” strategy is key to driving the Group’s long-term growth. Foxconn is dedicated to championing environmental sustainability in the manufacturing process and serving as a best-practice model for global enterprises. To learn more, visit www.honhai.com
