## **Mitsubishi Electric Expects Extraordinary Gains from Partial Return of Retirement Benefit Trust Assets**

**TOKYO, May 25, 2026** – [Mitsubishi Electric Corporation](https://www.mitsubishielectric.com) (TOKYO: 6503) announced today that it will receive a partial return of the retirement benefit trust assets, and that the related gain will be recorded in the company's non-consolidated financial results for the fiscal year ending March 2027.

The plan assets, including the retirement benefit trust assets, are overfunded relative to defined benefit obligations, a situation expected to continue into the future. Accordingly, Mitsubishi Electric will receive a partial return of the retirement benefit trust assets, which will lead to additional gains.

### **1. Date of Return**

May 29, 2026

### **2. Amount Returned**

JPY 300 billion

### **3. Impact on Profit or Loss**

Mitsubishi Electric expects to record approximately JPY 210 billion in extraordinary gains related to the partial return of retirement benefit trust assets in its non-consolidated financial results for the fiscal year ending March 31, 2027. The amount of the gain will be determined at the time of the return and may therefore change.

Since Mitsubishi Electric has adopted International Financial Reporting Standards (IFRS) for its consolidated financial statements, changes arising from the remeasurement of the fair value of the retirement benefit trust assets are recognized in other comprehensive income in the period in which they occur. Consequently, any gain related to the return of the retirement benefit trust assets will not be recognized in the consolidated statement of profit or loss. There will be no impact on the forecasted consolidated financial results for the fiscal year ending March 31, 2027.
