Sharing its way of thinking about procurement, the Group promotes CSR initiatives along the supply chain. In addition to thoroughly strengthening businesses and promoting development for innovation, the Group is striving to create greater value and engage in the development of future technologies. The Group is engaging in manufacturing that lowers environmental burden and that takes into consideration safety and quality. The Group is striving to reduce the amount of packaging materials used and to emit less CO2 in transporting products. Through products and services, the Group contributes to the realization of a sustainable society and provision of safety, security, and comfort.

- **Procurement**
  - Realization of Environmental Vision 2021
  - Reduce CO2 emissions from production
  - Reduce resource inputs
  - Contributing to realizing a low-carbon society
  - Contributing to creating a recycling society
  - Contributing to realizing a symbiotic society

- **Development**
  - Contribute through products and services

- **Production**
  - Product development that places top priority on customer safety
  - Make Group-wide efforts to investigate the cause of serious malfunctions that have occurred in the past and implement countermeasures
  - Provide products and services that contribute to Goal 11, “Sustainable cities and communities,” of the SDGs
  - Develop key persons who are capable of incorporating customers’ needs into quality

- **Transportation**
  - Reduce resource inputs
  - Provide products and services that contribute to Goal 7, “Affordable and clean energy,” and Goal 13, “Climate action,” of the SDGs

- **Sales and use**
  - Maintain the reduction of CO2 during product usage
  - Provide products and services that contribute to Goal 11, “Sustainable cities and communities,” of the SDGs
