

Reducing the Use of Disposable Packaging Materials

Achievements of Mitsubishi Electric Group Companies in Japan in Fiscal 2020

Improvements in logistics are part of Mitsubishi Electric Group's Just-In-Time improvement activities. Our fundamental principle in this area is to reduce the weight of transport packaging while ensuring that products are delivered safely to customers. Based on this line of thinking, we practice the 3Rs in packaging: reduce (simplify packaging), reuse (more returnable containers and packaging), and recycle (recycling of used packaging material).

At Mitsubishi Electric Group companies in Japan, simpler packaging is promoted, and the use of returnable containers and packaging has been expanded. Owing to these initiatives, the amount of packaging materials used was 59 kt (down 3.3 kt from the previous fiscal year), and the amount per unit of sales was 16.1 kg/million yen (down 4.7% from the previous fiscal year).

The amount of packaging materials used by our 22 overseas affiliates was 76 kt, and the amount per unit of sales was 87 kg/million yen (a fall of 19% compared to the previous fiscal year).
