Your First Inverter

Satellite Training Series PART 2

Do you have difficulty in education of engineers in overseas factories?

Explained clearly by instructors
Can learn from the basics of inverters
Can also learn the software thoroughly
Assembly of the training machine also explained*

【Supported languages】
English / Japanese / Chinese / Indonesian / Thai / Vietnamese

“DVD & Textbook” for learning the basics of inverters

- Rewatch as many times as necessary
- Suitable as a short training for group learning
- Full of practical programming examples

* The training machine is not supplied as an accessory of this product.
Training DVD Contents

Chapter 1 Basics of the Inverter
1. What is an Inverter?
2. Motor and Frequency
3. Structure of the Inverter

Chapter 2 Introduction of the Actual Inverter
4. Actual Inverter
5. Checking the Operation Panel

Chapter 3 Setting Basic Parameters
6. Parameters
7. Practice

Chapter 4 Inverter Setup Software
8. FR Configurator
9. System Settings of FR Configurator
10. Practice

Chapter 5 Instructions for Use
11. Precautions for Use of Inverter
12. Faults and Corrective Actions

Chapter 6 Useful Optional Connection Function
13. Operation Using External Signals
14. Working with FA Products
