

Our Compliance with WEEE Directive

Our FA products will be implemented marking that complies with the European WEEE Directive would like to inform you.

1. Overview WEEE Directive

The purpose of this WEEE Directive is to promote reuse and recycle and reduce and reduction amount of WEEE disposed. In addition, EU Member States and producers are obliged to establish a WEEE collection and recycling system and bear the costs.

(1) Scope (※Covered all EEE (except the exempted EEE by this Directive shall not apply).

1. Temperature exchange equipment
2. Screens, monitors, and equipment containing screens having a surface greater than 100cm²
3. Lamps
4. Large equipment
5. Small equipment
6. Small IT and telecommunication equipment (no external dimension more than 50 cm)

(2) Obligations of that producer

Producer is required to implement by this directive below four things.

- ①Registration with the competent authorities of EU member States
- ②Construction of WEEE treatment system
- ③Product design considering reuse, dismantling, and recovery
- ④Marking WEEE symbol on the products

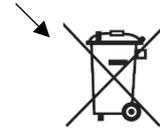

2. Applicable products to WEEE marking and circumstance

This symbol (refer to the following right) is marked on the product.※1

※1) As exceptional cases, where this is necessary because of the size or the function of the product, the symbol is without 'black under bar', deformed to simple design, or printed on the instructions for use.

Currently, corresponding sequentially, but, as for applying products and change time, please refer to each product announcements (e.g. sales and service) that is published future. If these announcements is not published about your FA products, please contact the distributor company, from which you purchased them.

'Crossed out wheeled bin' symbol

'Black under bar' means indication that the product was put on EU Member States market after 13 August 2005.

【As for WEEE symbol】

This symbol is for EU countries only and according to the directive 2012/19/ EU Article 14 Information for users and Annex IX.

This symbol means that electrical and electronic equipment, at their end-of-life, should be disposed of separately from your household waste.

3. Applicable products

All our FA products (except a part of ※2)

※2) Exempted EEE (e.g. large-scale stationary industrial tools, large-scale fixed installations and specifically designed and installed for the equipment) by Article 2 from WEEE Directive (2012/19/EU) .

4. For Customers, exporting to EU member states

When exporting our FA products to EU member states, customers (and/or importers in EU member states) are needed to comply with the WEEE Directive (product registration, sales volume reporting, etc.) depending on circumstance.
