Specification change of Mitsubishi Energy Saving Data Collecting Server (EcoWebServerIII)

We would like to inform you that we are going to change the specifications of Mitsubishi Energy Saving Data Collecting Server (EcoWebServerIII).

1. Type
(1) MES3-255C-CN   (Chinese Version)
(2) MES3-255C-DM-CN   (Chinese Version with demand control function)
(3) MES3-255C-EN   (English Version)
(4) MES3-255C-DM-EN   (English Version with demand control function)

2. Contents of change
(1) Addition of support terminal
    EcoMonitorPlus Control Unit (EMU4-CNT-MB) will be supported.
        (i)   It enables to confirm terminal connection of the Control Unit.
        (ii)   It enables to acquire the data of extension units which are connected to the Control Unit.
              *It's not possible to monitor controlling status of the Control unit by EcoWebServerIII.

(2) Change of setting software version
    The version changes to 3.4.0 from 3.3.0.

3. Reason for the change
Improvement of function and specification.

4. Time of change
From the production in October 2020.
However, please note that new and old version may be mixed at the time of stock change.

5. Version upgrading
For customers who have been using EcoWebServerIII, please use the latest version of setting software to upgrade the version of EcoWebServerIII.
The setting software can be downloaded on the following website. Time for provision of software will be October 2020.
