*A file is counted as one unit for PLC data logging files.

- (2) Update the recommended operation environment・・・Applicable for all specification editions

Item	Before	After
CPU	Intel® Core™ i3-550 or more	Intel® Core™ i5-8500 or more
Memory	4GB or more	8GB or more
Hard disc	20GB or more	50GB or more
Spreadsheet software	Microsoft Excel 2016 (32/64bit), 2019 (32/64bit), 2021 (64bit)	Microsoft Excel 2021 (64bit), 2024 (64bit)

3. Reason for change

To expand supporting collection source

4. Time of change

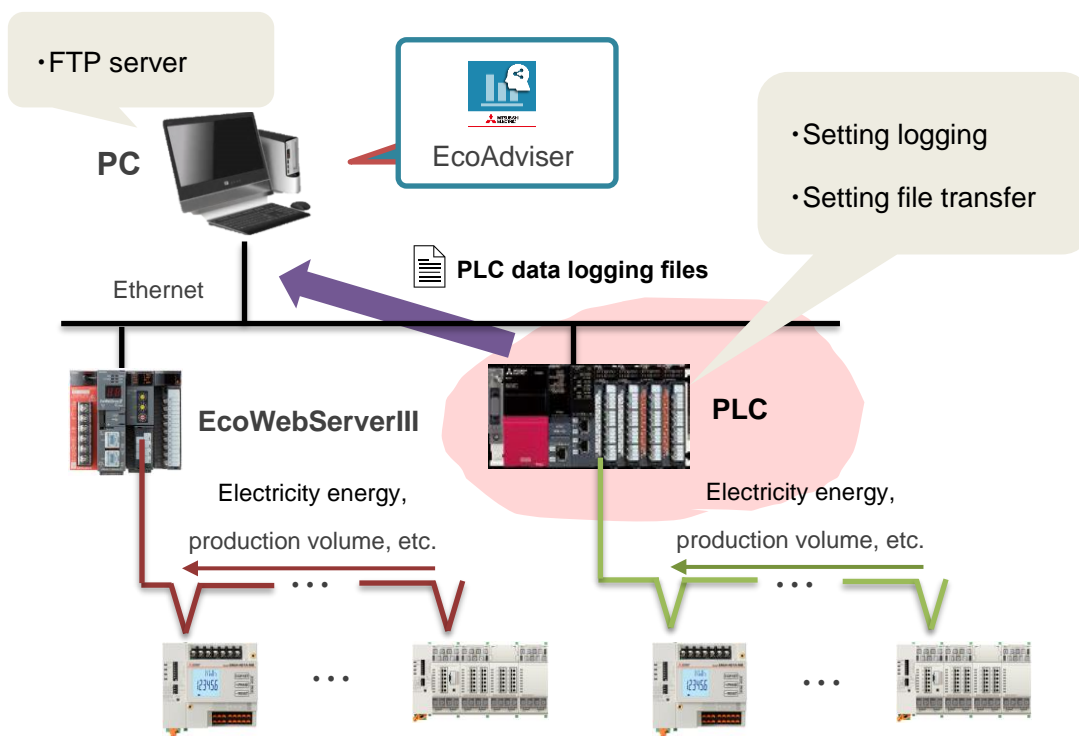

Production starting from October 2025.

(Please bear in mind that the exact start of production may change due to stock condition.)

5. Details in changes

(1) Correspond to programmable controller

Now data can be collected from data logging files which the programmable controller outputs.

6. Version upgrading

Even customers who have already purchased the product can update to the latest software version by downloading the necessary software from the download page on our website (Mitsubishi Electric FA Global site).

By downloading and installing EcoAdviser from the Energy Saving Support Devices Software Download section on our website (Mitsubishi Electric FA Global site), you will be able to use the updated features.

*It is scheduled to be released on FA Global site in October 2025.
