

Discontinuation of the FR-F700 Series General-Purpose Inverters

Thank you for your continued patronage of the Mitsubishi Electric drive control products.
 As the succeeding models of the FR-F700 series inverters, we have released the FR-F800 series inverters with downward compatibility.
 Due to this, we are discontinuing the production of FR-F700 series inverters according to the following schedule.
 We ask for your understanding in this matter.

1. Models to be Discontinued

FR-F700 series general-purpose inverters
 FR-F700-EC (29 models in total), FR-F700-NA (46 models in total), FR-F700-TW (30 models in total),
 FR-F700P (29 models in total)

2. Schedule

Production continues on orders received by the last day of September 2017.
 Made-by-order production starts on August 1st, 2017 in advance of the discontinuation.
 Repair service is accepted on orders received by the last day of September 2024.
 Note) Repairs are subject to the supply of service parts and may not be possible even within the repair service period.
