

UKCA Mark Added to the FR-E5NF and FR-S5NFSA General-Purpose Inverter Options

Thank you for your continued patronage of Mitsubishi Electric drive control products.

The use of the UKCA marking, instead of the CE marking, started from January 1, 2021, after the departure of the UK from the EU. (Products with the CE marking can be sold in the UK markets during transition period from January 1, 2021 to December 31, 2024.)

We will affix the UKCA marking to our products with the CE marking after confirming compliance with the UK legislation and standards.

The change does not affect the quality, performance, or specifications of the products.

1. Products Affected

FR-E5NF-H0.75K/H3.7K/H7.5K, FR-S5NFSA-0.75K/1.5K

2. Details of Change

The UKCA marking will be added on the product's plate.

The layout of the markings, the font size, and the font in the plate will be changed.

*1 For addition of the WEEE Directive symbol, refer to Sales and Service No. 734E.

(The WEEE Directive symbol will be added at the same time as this change.)

Sales and Service No. 734E is available via the following link.

<https://www.mitsubishielectric.com/fa/document/sales/inv/734e/pu734e.pdf>

3. Date of Change

The change will be sequentially applied to the products manufactured in January 2024 or later.

4. Product Identification

The products can be identified by the presence/absence of UKCA marking.
