

MITSUBISHI ELECTRIC Inverter

Sales and Service

No. 854E

Discontinuation of the General-Purpose Inverter Options FR-FD and YVGC-500W-NS

Thank you for your continued patronage of Mitsubishi Electric drive control products. Production of the highly valued general-purpose inverter options FR-FD and YVGC-500W-NS will be discontinued according to the following schedule. We ask for your understanding in this matter.

1. Model to be discontinued

Deviation detector FR-FD
Deviation sensor YVGC-500W-NS

2. Schedule

Production will continue on orders received by the last day of September 2026.
Made-to-order production starts on June 1, 2026 in advance of the discontinuation.
Requests for repairs and service will be accepted until the last day of September 2030.

Note) Repairs are subject to the supply of service parts and may not be possible even within the above repair service period.

3. Successor models

No successor models are available.
