

Specification change of SLT and SQT for MCCBs and ELCBs

We would like to inform that we will change the specification of lead wire terminal block (SLT) and lead wire spring clamp terminal block (SQT).

1. Types

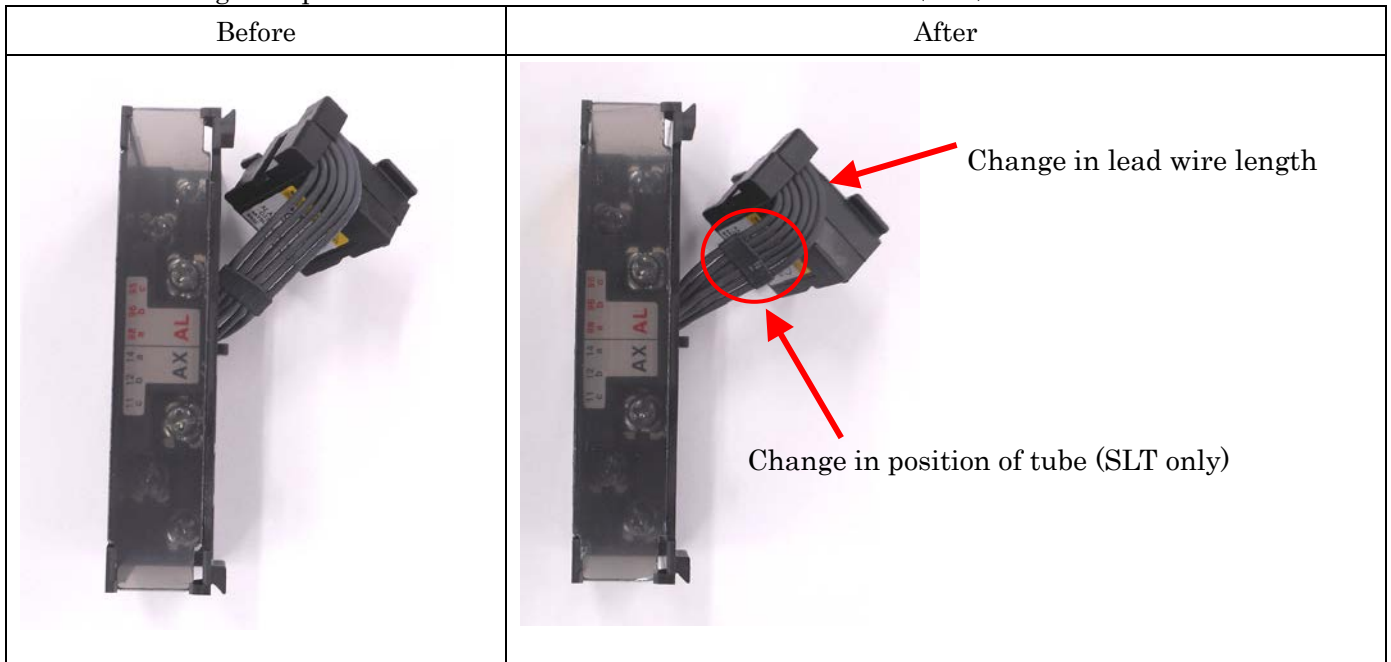

Model		Content of change ※Refer to page 2 for detail				
		Change in position of tube	Elimination of white marking	Change in lead wire length

Factory built-in will also change.

2. Content of change

To change the position of the tube in lead wire terminal block (SLT).

To eliminate the white marking on the lead wire spring clamp terminal block (SQLT).

To change the lead wire length of lead wire terminal block (SLT) and lead wire spring clamp terminal block (SQLT).

There is no change in product characteristics by above specification changes.

3. Reason for change

To improve productivity by integrating the specification of lead wire block (SLT) and lead wire spring clamp terminal block (SCLT).

4. Time of change

From production in July 2021.

Please bear in mind that the exact start of production may change due to the stock condition.
