*1: TUV marking is removed from the circuit breaker body but the certification continues.

*2: Informed by MELEX048

*3: It varies depending on the specification or product.

Remarks: Mag only, DC special voltage, thyristor protection, high instrument breaker, low instrument breaker, plug-in type, circuit breaker for special environment will also have same change.

2. Reason for change

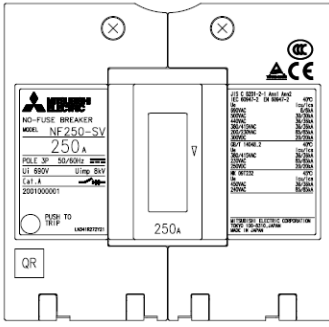

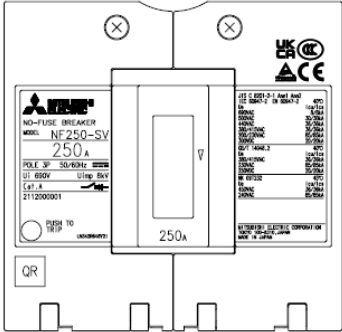

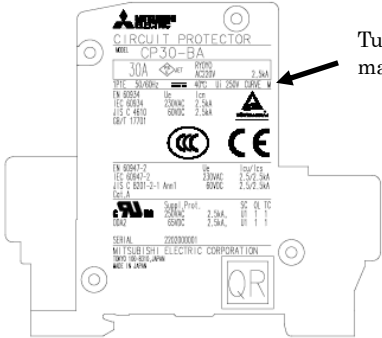

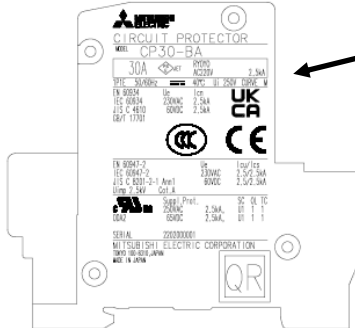

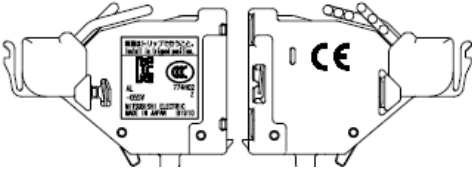

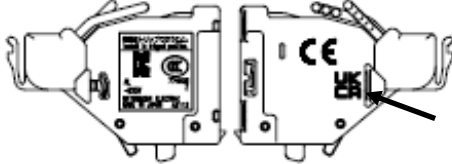

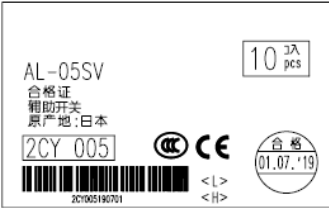

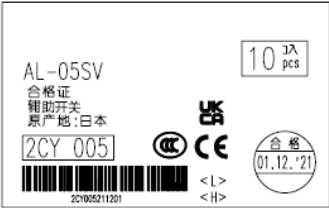

To put UKCA marking in accordance with UK withdrawal from EU.

3. Time of change

From production in August 2022.

Please bear in mind that the exact start of production may change due to stock condition.
