

Mitsubishi Electric AC Servo System

Sales and Service

No.25-21AE

Change in UL Mark Indication of AC Servo Motors

Thank you for your continued patronage of the Mitsubishi Electric AC servo system.
The UL mark indication of AC servo motors will be changed.

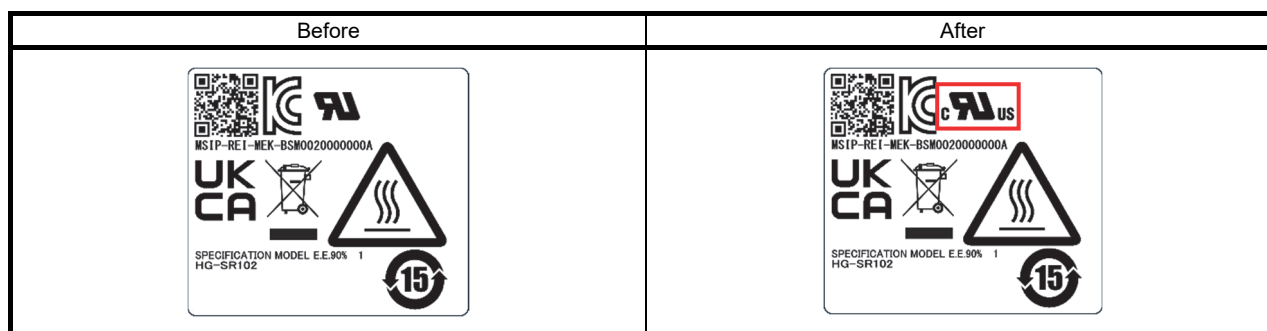

1. Target Model

Rotary servo motors HK-KT series, HK-MT series, HK-ST series, HK-RT series,
HK-KN series, HK-FN series, and HK-SN series
Direct drive motors TM-RG2M series, TM-RU2M series, and TM-RFM series

2. Details of the Change

The UL mark will be changed from RU (U.S. certification only) to cRUus (U.S. and Canadian certification).

This change does not affect the functions and performance of the products.

* The images are presented as examples only.

3. Background

The target models with the cRUus mark will be manufactured again because the lead wires used in the target models will be compliant with cRUus (U.S. and Canadian certification) requirements.

4. Schedule

- (1) Rotary servo motors
This change will be made sequentially from the January 2026 production.
- (2) Direct drive motors
This change will be made sequentially from the April 2026 production.

There may be cases where both the former and new products exist in the distribution stage.
Please contact the local sales office when the products compliant with the standard are required.

Revision

Version	Date of issue	Revision
A	December 2025	Updated the contents because the lead wires will be compliant with cRUus (U.S. and Canadian certification) requirements.

 <p>MSIP-REI-MEK-BSM0020000000A UK CA SPECIFICATION MODEL E.E.90% 1 HG-SR102</p>	 <p>MSIP-REI-MEK-BSM0020000000A UK CA SPECIFICATION MODEL E.E.90% 1 HG-SR102</p>

* The images are presented as examples only.

3. Background

A factory inspection conducted by Underwriters Laboratories Limited Liability Company found that the lead wires used in the target models are compliant only with RU (U.S. certification) requirements but not with cRUus (U.S. and Canadian certification) requirements.

4. Schedule

This change will be made sequentially from the July 2025 production. There may be cases where both the former and new products exist in the distribution stage.

5. Future Action

For the target models, the cRUus mark will be displayed on the products again after the lead wires are compliant with cRUus (U.S. and Canadian certification) requirements.
