Change in Packaging Labels and Rating Plates due to Enforcement of EU Cyber Resilience Act

Thank you for your continued patronage of the Mitsubishi Electric AC servo system. In response to the implementation of the EU Cyber Resilience Act (hereinafter referred to as "CRA") on December 11, 2027, we will remove the CE mark displayed on the packaging labels and rating plates of certain servo system controller models. In addition, with the removal of the CE mark, the UKCA mark will also be removed.

1. Reason for the Removal of the CE Mark and UKCA Mark

Under the CRA, which will be enforced on December 11, 2027, products containing digital components must meet the relevant requirements in order to display the CE mark. The models listed in "Table 2. Target Model" on the next page do not meet the relevant requirements under the current specifications, and design modifications to satisfy these requirements are not feasible. Therefore, we will remove the CE mark. For models displaying the UKCA mark, we will also remove the UKCA mark.

2. Details of the Change

The CE mark and UKCA mark will be removed from the rating plate and packaging label. There is no impact on the general specifications, performance specifications, functions, and dimensions of products due to the change. As an example, the changes for the LD77MS16 are shown below.

Table 1. Details of the Change

Part to be changed	Before	After
Rating plate		
Packaging label		

Date of issue	August 2026	Title	Change in Packaging Labels and Rating Plates due to Enforcement of EU Cyber Resilience Act	Mitsubishi Electric Corp., Nagoya Works 1-14, Yada-minami 5-chome, Higashi-ku, Nagoya 461-8670 Tel.: +81 (52) 721-2111 Main line
----------------------	-------------	--------------	--	--

3. Target Model and Schedule

This change will be made sequentially from the shipments of the periods listed below.
Depending on the model, the schedule may be advanced or delayed.

Table 2. Target Model

Product name	Model	Schedule
MELSEC-L series Simple Motion module	LD77MS2, LD77MS4, LD77MS16	September 30, 2027
MELSEC-Q series Simple Motion module	QD77GF4, QD77GF8, QD77GF16	June 30, 2027
MELSEC iQ-R series Simple Motion module	RD77GF4, RD77GF8, RD77GF16, RD77GF32	June 30, 2027
Encoder	MR-HENC	June 30, 2027
Stand-Alone Motion controller	Q170MSCPU, Q170MSCPU-S1	June 30, 2027
Simple Motion board	MR-EM340GF	June 30, 2027

* Special products derived from the above models are also subject to the change.

4. Precautions

The models listed in "Table 2. Target Model" do not meet the relevant requirements of the CRA. Therefore, importation into the European Union and the United Kingdom will be prohibited from December 11, 2027. However, these restrictions may not apply in cases where the purpose is repair, maintenance, etc. For the final eligibility of importing the product into the European Union and the United Kingdom, we kindly ask you to confirm and make your own judgment.

5. Request to Customers

If you require products that display the CE mark and UKCA mark, please place your order by March 31, 2027.
