[Title] Indication Change with the Revision of the Radio Waves Act (South Korea)

[Date of Issue] Ver. A: November 2011 (First Edition: August 2011)

[Relevant Models] GOT1000 Series

Thank you for your continued support of Mitsubishi Graphic Operation Terminal (GOT).  
Since the Radio Waves Act (South Korea) was revised, we have changed the indications on the GOT1000 series products and their packages.

## 1. Overview

Since the Radio Waves Act (South Korea) was revised, if a product subject to the act is exported to South Korea (passes through the customs in South Korea) on July 1, 2011 and later, the following is required. The product must get the proper certification in South Korea, and the product and its package must indicate the KC mark and a certification number. Therefore, we have performed the following changes.

## 2. Indication change with the revision of the Radio Waves Act (South Korea)

The revised act requires manufacturers to satisfy the following requirements.

Act effective date	January 24, 2011
Full compliance date	July 1, 2011 (Subject to products passing through the customs in South Korea)
Act effective region	South Korea
Target product	Broadcasting and communications equipment, equipment that causes electromagnetic disturbances or is affected by electromagnetic waves
Indication on the product	The KC mark and a certification number must be indicated. If the product is too small to indicate them, only the KC mark is permissible. The indication of the manufacturer year and month must be added.
Indication on the package	The KC mark and a certification number must be indicated.
Description in the manuals	The description regarding the business use of Class A broadcasting and communications equipment must be added.

## 3. Target Mitsubishi products and changes

### (1) Target products

The target products include most of the GOT main units, communication units, option units, and options.  
For the details, refer to the MELFANSweb website.

(2) Changes

The indications on the product and its package and the descriptions in its manuals have been changed as shown below.

1) Indication on the product

- Models that have conventionally complied with the act  
 The KCC mark is replaced with the KC mark.  
 The indication of a certification number remains the same.  
 The indication of the manufacture year and month (DATE) is added.

	Before change	After change
Indication		 <div style="border: 1px solid red; padding: 5px; margin-top: 10px; width: fit-content; margin-left: auto; margin-right: auto;">                 Changes: The mark is changed.                  The manufacture year and month (DATE) is added.             </div>

- Models that newly comply with the act  
 The indications of the KC mark and a certification number are added.  
 If the model is too small to indicate them, only the KC mark is indicated.  
 The indication of the manufacture year and month (DATE) is added.

	Before change	After change
Indication		 <div style="border: 1px solid red; padding: 5px; margin-top: 10px; width: fit-content; margin-left: auto; margin-right: auto;">                 Changes: The KC mark is added.                  A certification number is added.                  The manufacture year and month (DATE) is added.             </div>
