[Date of Issue] July 2014

Thank you for your continued support of Mitsubishi Graphic Operation Terminal (GOT).
For the GOT2000 series and GOT1000 series screen design software, MELSOFT GT Works3 Version1, the operating environment has been changed.

1. Target Software and Version

GOT screen design software

- MELSOFT GT Works3 Version1: SW1DND-GTWK3-□ (Japanese, English, and Simplified Chinese versions), Ver.1.122C or later

2. Reasons for Change

Several years has elapsed since Microsoft® ended support for Windows® 2000 in July 2010. Also with the end of support for Windows® XP, we need to change our development environment. Consequently, we have ended support for our software running on Windows® 2000 and Windows® XP Service Pack2.

3. Details of Change

The target software Ver.1.122C or later is not compatible with Windows® 2000 and Windows® XP Service Pack2. The following table shows compatibility between OSs and the target software.

○: Compatible, ×: Not compatible

OS	GT Works3 Version1
