[Title] Production Discontinuation of Main Units and Some Option Units in the GOT1000 Series for Overseas

[Date of Issue] March 2016 (Ver. O: October 2020)

[Relevant Models] GOT1000 Series

Thank you for your continued support of Mitsubishi Electric Graphic Operation Terminal (GOT). We have discontinued the production of all GOT1000 series models and option units as follows. This bulletin also provides the models that were already discontinued or announced to be discontinued.

### Contents

1. Mod	dels to be Discontinued and Schedule	2

#### 2. Reasons for Discontinuing Production

Along with finer design rules and growing environmental awareness in recent years, we have difficulty in procuring some conventional parts of the GOT, such as semiconductor parts (microcomputers, memories, ASICs, etc.), STN LCDs, and LCDs with CCFL backlight. We have continued the production by taking actions, such as stocking adequate discontinued parts. Nonetheless, we are about to run out of the parts and have difficulty in maintaining the production and quality systems.

#### 3. Replacement Models

#### (1) Selecting the GOT

The following table shows the replacement models. For the details, refer to the following technical bulletin.

- ➡ Precautions when Replacing GOT1000 Series with GOT2000 Series (GOT-A-0061) Information and precautions on replacing GOT1000 with GOT2000 or GS(GT10 model)
  - $\rightarrow$  GT21 model) (GOT-A-0133)

Precautions when Replacing the GT14 Model with GT2505(HS)-VTBD (GOT-A-0125) Precautions when Replacing GT11 Model with GT27 and GT25 Models for Overseas (GOT-A-0148)

\*1 This model has a white front panel. For the details, refer to the following technical bulletin.

→ Precautions when Replacing GOT1000 Series with GOT2000 Series (GOT-A-0061)

\*2 The display color specification is changed to 65536 colors since the GOT2000 series does not support the 4096-, 256-, or 16-color specification. Note that the price range differs. For the details, refer to the following catalog.

→ Mitsubishi Graphic Operation Terminal GOT2000 Series (L(NA)08270ENG)

\*3 Although the panel cutting dimensions are compatible, the external dimensions increase by 2 mm in each vertical direction.

\*4 Although the display section is changed from a matrix-resistive touch panel to an analog-resistive touch panel, the 2-point press is available.

However, note the precautions for arranging touch switches. For the details, refer to the following technical bulletin.

→ Precautions when Replacing GOT1000 Series with GOT2000 Series (GOT-A-0061)

\*5 The display section is changed from a matrix-resistive touch panel to an analog-resistive touch panel. The 2-point press is unavailable.

#### [Issue No.] GOT-A-0095-O

- \*6 For GT2505-VTBD, a communication unit or option unit is not usable, consider replacing the GOT with the GT2705-VTBD.
- To connect a QCPU (Q mode) by the bus connection, consider replacing the GOT with the GT2705-VTBD.
- For the replacement with GT2705-VTBD, a Q bus connection communication unit (any one of GT15-QBUS, GT15-QBUS2, GT15-75QBUSL, or GT15-75QBUS2L) is necessary.
- Use an attachment (GT21-04RATT-40) as different panel cutting dimensions are required.
- \*a Use an SD card instead of a CF card.
- \*10 The memory loader (GT10-LDR) is not usable. Use the SD card unit (GT21-03SDCD) and an SD card.
- \*11 The memory loader (GT10-LDR) is not usable. To use the memory loader, consider replacing the GOT and memory loader with GT2103-PMBDS and SD card unit (GT21-03SDCD) and SD card.
- \*12 The memory board (GT10-50FMB) is not usable. Use an SD card.
- \*13 The memory loader (GT10-LDR) is not usable. Use an SD card.
- \*14 The memory loader (GT10-LDR) is not usable. To use the memory loader, consider replacing the GOT and memory loader with the GT2103-PMBDS and the SD card unit (GT21-03SDCD) and an SD card.
- \*15 Consider replacing with the communication type other than the bus connection. For details, refer to the following.
  - → Precautions when Replacing GT11 Model with GT27 and GT25 Models for Overseas (GOT-A-0148)
- \*16 The GT16 models with function version G or earlier use a CCFL backlight. Maintenance requests for the models will be accepted through December 31, 2021. For the details, refer to the following technical bulletin. → GT16 models parts change (LCD, buzzer, and reset switch) (GOT-A-0071)
- \*17 The GT2512 models have no human sensor.
- If a human sensor is required, consider replacing the GOT with a GT2712 model.
- \*18 The GT25 models do not support the multimedia function and the video/RGB function. To use the multimedia function and the video/RGB function, consider replacing the GOT with the GT27 models.
- \*19 Panel cut dimensions change from 153 × 121 (mm) to 180.5 × 133.5 (mm).
- \*20 Panel cut dimensions change from 153 × 121 (mm) to 191 × 137 (mm).
- \*21 Panel cut dimensions change from 137 × 66 (mm) to 118 × 92 (mm). \*22 Panel cut dimensions change from 137 × 66 (mm) to 105 × 66 (mm).
- \*23 The resolution after replacement changes (from 320 × 240 dots to 800 × 480 dots).
- \*24 The resolution after replacement changes (from 320 × 240 dots to 480 × 272 dots). \*25 The resolution after replacement changes (from 288 × 96 dots to 480 × 272 dots).
- \*26 The resolution after replacement changes (from 288 × 96 dots to 320 × 128 dots).
- \*27 The cable connector for PLC communication of GT2505HS-VTBD is set to the "Ethernet" connection at factory default. To perform the serial connection with a peripheral such as a PLC, set the cable connector for PLC communication to "RS-232" or "RS-422"
  - The cable connector for PLC communication is inside of the environmental protection back cover.
