

Material Change for Extension Interface Covers for GT27 and GT25 Models for Overseas

■Date of Issue

February 2024

■Relevant Models

GOT2000 Series

Thank you for your continued support of Mitsubishi Electric Graphic Operation Terminal (GOT).

This bulletin informs you that the material of the extension interface covers on the GOT rear face will be changed for GOT2000 series GT27 and GT25 models (except the 5.7-inch models and GT25 handy models).

This change does not affect the general specifications, product specifications, functions, and external dimensions of the GOTs.

*1 No extension interface and auxiliary extension interface on the GOT rear face.

For the details, refer to the following Technical Bulletin.

 Product Specifications of GT27-040 and GT25-040 Models (GOT-A-0176)

*2 No extension interface on the GOT rear face.

For the details, refer to the following Technical Bulletin.

 Product Specifications of GT27-040 and GT25-040 Models (GOT-A-0176)

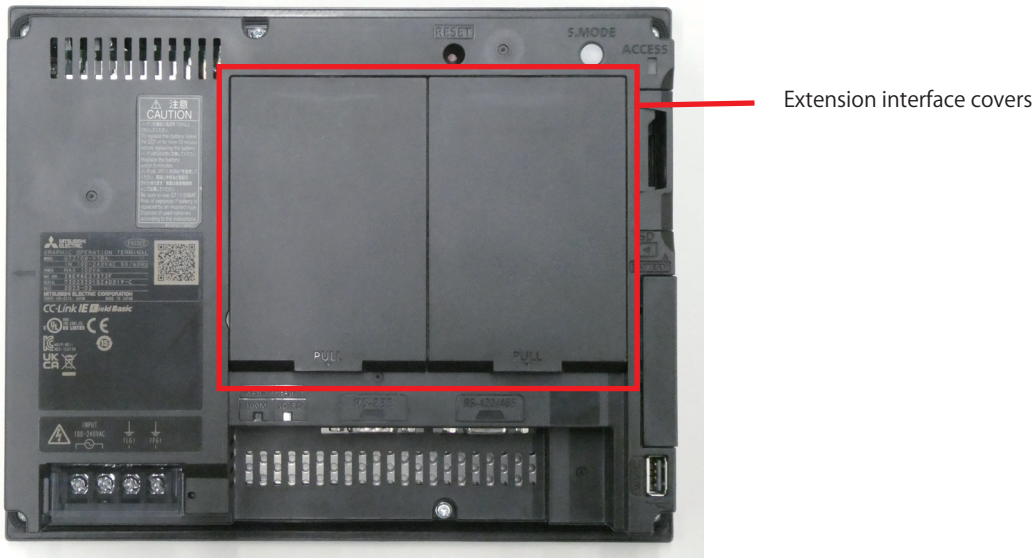

GOT-A-0223-A

2 Details of the change

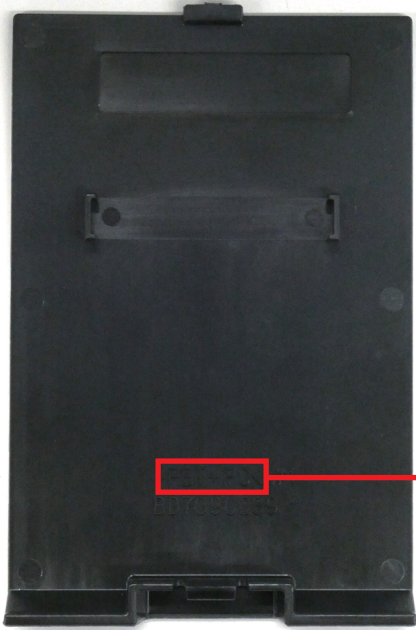

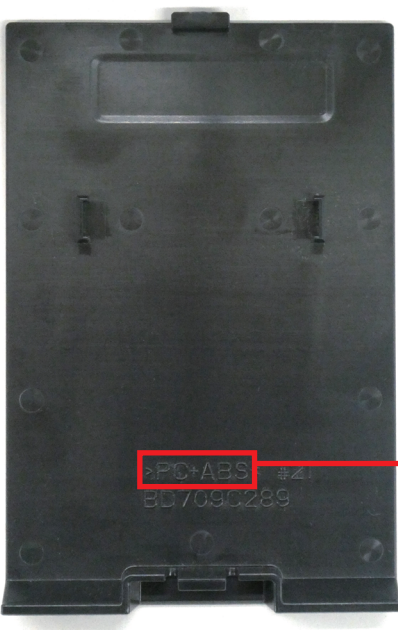

We will change the material of the extension interface covers on the GOT rear face.

Along with the change, the description of the material will be changed.

The color may appear different depending on the viewing angle and the reflection of light.

Covers attached to the GOT

Item	Before	After
Material	PBT+PC	PC+ABS
Material indication on the back side of the extension interface cover		

3 Schedule

The change will be made sequentially from the March 2024 production.

There may be cases where GOTs with the former covers and GOTs with the new covers exist in the distribution stage.
