### Changes to the Protective Sheets for GT37 Wide Models

■ Date of Issue

January 2026

■ Relevant Models

GOT3000 Series

---

Thank you for your continued support of Mitsubishi Electric Graphic Operation Terminal (GOT).

We will change the base material and the packaging boxes for the protective sheets of the GT37 wide models.

The change to the protective sheet base material does not affect the general specifications, product specifications, functions, and external dimensions of the GOTs.

However, the screen appearance may differ slightly.

The change to the packaging boxes does not affect the general specifications, product specifications, and functions.

## 1 Models affected and schedule

The following shows the affected models.

Table 1: List of the affected models and their versions after the change

Product	Model	Specifications	Version after base material change	Schedule
Protective sheet	GT37-15WPSGC	15.6" wide screen	B or later	February 2026 production and later <sup>*1</sup>
	GT37-15WPSCC			
	GT37-12WPSGC	12.1" wide screen	B or later	February 2026 production and later <sup>*1</sup>
	GT37-12WPSCC			

\*1 There may be cases where both the former and new products exist in the distribution stage.

## 2 Details of the change

### Change to the protective sheet base material

European Commission Regulation (EU) of May 16, 2024 added three substances (dodecamethylcyclohexasiloxane, decamethylcyclopentasiloxane, and octamethylcyclotetrasiloxane) to the EU REACH Regulation. This will be effective from June 6, 2026.

Since the base material of the applicable protective sheets contains three substances restricted under the EU REACH Regulation (dodecamethylcyclohexasiloxane, decamethylcyclopentasiloxane, and octamethylcyclotetrasiloxane), the material will be changed.

### Change to the packaging boxes

The packaging boxes will be changed to save resources.
