[Relevant Models] GOT-A900 Series, GOT-F900 Series (Liquid Crystal Display Type)

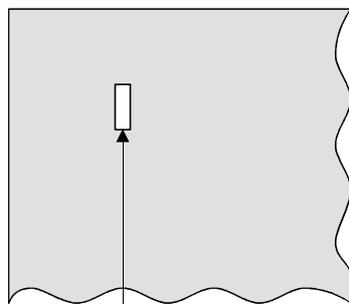

Thank you for your continued support of Mitsubishi Graphic Operation Terminal GOT Series.

This bulletin provides a note on the characteristic of the liquid crystal display panel for GOT Series.

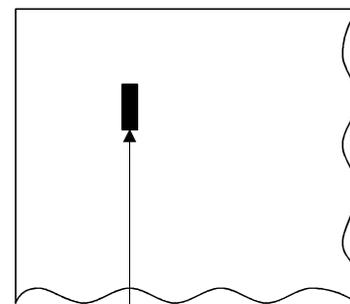

1. Characteristic of Liquid Crystal Display Panel (bright dots and dark dots)

Bright dots (always lit) and dark dots (unlit) may appear on a liquid crystal display panel. It is impossible to completely avoid this symptom, as the liquid crystal display comprises of a great number of display elements. Please note that these dots appear due to its characteristic and are not caused by product defect.
