■Relevant Models

MELSOFT series

Thank you for your continued support of MELSOFT series.

We will inform you of the products that we have confirmed the operation in order to use MELSOFT products even in the whitelist method security environment.

1 WHITELIST METHOD SECURITY

Whitelist method security is a security method that registers software which is confirmed safety in advance.

- Run of only registered software is permitted.
- Run of software which is not registered is blocked.

2 CONFIRMED ENVIRONMENTS

The operation is confirmed on a personal computer on which the following security software is installed.

- McAfee® Application Control 6.2.0
- Trend Micro Safe Lock 2.0
