**■Relevant Models**

QJ71LP21-25, QJ71LP21S-25, QJ71LP21G, QJ71LP21GE

Thank you for your continued support of Mitsubishi Electric programmable controllers, MELSEC-Q series.

We are informing you that the parts of rotary switch for the MELSEC-Q series MELSECNET/H network modules will be changed for stable parts procurement.

With this change, the color of the rotary switch will be changed. And the position of "0" is to be reversed left and right. The indication on the front of module will be changed to prevent errors in setting.

After this change, pay attention to the position of "0" when setting the station number or mode.

There is no impact on the product functions and performance due to this change.
