

**Change in Packaging Box to Prevent Tampering with MELSEC-Q Series Products**

## ■Date of Issue

May 2022

## ■Relevant Models

Q03UDVCPU, Q04UDVCPU, Q06UDVCPU, Q13UDVCPU, Q26UDVCPU

Thank you for your continued support of Mitsubishi Electric programmable controllers, MELSEC-Q series.

To prevent tampering with products including software after shipment from the factory, the specifications of the packaging box for the following models will be changed so that a trace at the time of the opening remains. This contributes to enhance the product security.

According to Technical Regulations of the Eurasian Economic Union (TR CU 005/2011) on the safety of the packaging, a recycle mark will be added on the packaging box and the print layout will be changed.

There is no impact on the external dimensions of the packaging box and the general specifications, performance specifications, functions, and external dimensions of the product which is packed due to the change.

**1 RELEVANT MODELS**

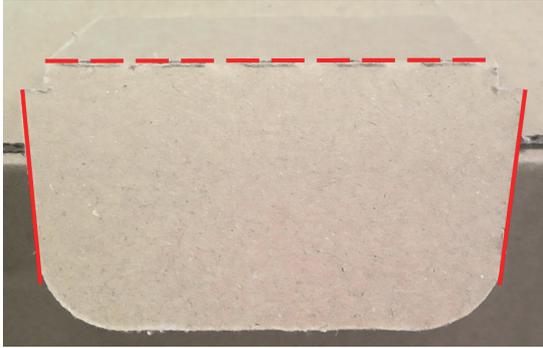

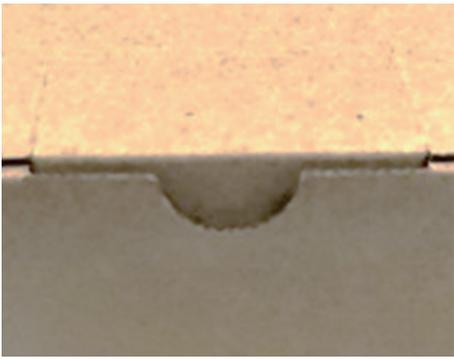

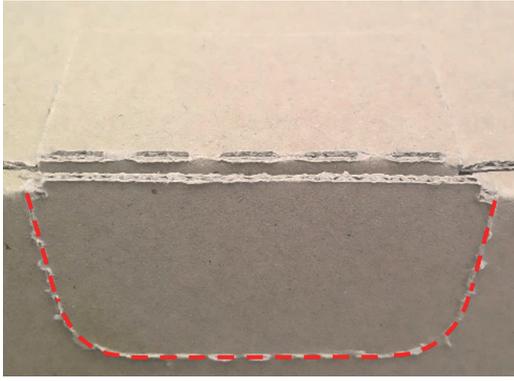

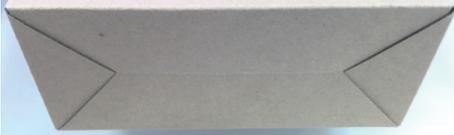

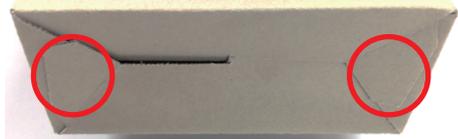

The following table lists the relevant models.

Series	Product	Model
MELSEC-Q	High-speed Universal model QCPU	Q03UDVCPU
		Q04UDVCPU
		Q06UDVCPU
		Q13UDVCPU
		Q26UDVCPU
