

Change in the Packaging for MELSEC iQ-R Serial Communication Module

■Date of Issue

May 2026

■Relevant Models

RJ71C24-R4

Thank you for your continued support of Mitsubishi Electric programmable controllers, MELSEC iQ-R series. We are informing you that the packaging for MELSEC iQ-R series serial communication module has been changed. There is no impact on the product functions and performance due to this change.

1 DETAILS ON THE CHANGE

The packaging for terminal blocks has been changed, and they are packed while attached to the module.

Item	Before change	After change
Packaging method	Terminal blocks are packed in different bags. 	Terminal blocks are attached to the module. 
Condition inside the packaging box		

2 REASON FOR THE CHANGE

Buffer materials are changed to cardboard in compliance with ISO 14001 (environmental management) to reduce environmental burden.

3 CHANGEOVER PERIOD

The change will take place in and after August 2026.

Note that, depending on stock status, both the products before and after change may be distributed in the market around that time.
