

Change in Applications Pre-installed on MELSEC iQ-R MELSECWinCPU Modules

■Date of Issue

June 2026

■Relevant Models

R102WCPU-W

Thank you for your continued support of Mitsubishi Electric programmable controllers, MELSEC iQ-R series.
We are informing you that the applications pre-installed on MELSEC iQ-R MELSECWinCPU modules will be changed.
There is no impact on the module functions and performance due to this change.

1 DETAILS ON THE CHANGE

The applications pre-installed on MELSEC iQ-R MELSECWinCPU modules will be changed.

Before change	After change	Remarks
CW Configurator (SW1DND-RCCPU-E)	CW Configurator (SW1DND-RCCPU-E)	Not changed
Edgecross Basic Software (SW1DNN-ECBS-M)	—	Pre-installation discontinued
SLMP Data Collector (SW1DND-DCSLMP-M)		

Precautions

Support for Edgecross Basic Software and SLMP Data Collector will end in March 2028.

If these applications are pre-installed on the purchased MELSEC iQ-R MELSECWinCPU module, it is recommended to uninstall them after support ends.

2 REASON FOR THE CHANGE

Edgecross Basic Software has been discontinued.

3 CHANGEOVER PERIOD

The change will take place in and after October 2026.

Note that, depending on stock status, both the products before and after change may be distributed in the market around that time.
