

Production Discontinuation of the MELSEC-Q Series DeviceNet Master/Slave Modules

■Date of Issue

September 2026

■Relevant Models

QJ71DN91

Thank you for your continued support of Mitsubishi Electric programmable controllers, MELSEC-Q series. This technical bulletin informs you that production of the MELSEC-Q series DeviceNet master/slave modules will be discontinued.

1 MODEL TO BE DISCONTINUED

Product	Model
MELSEC-Q series DeviceNet master/slave module	QJ71DN91

2 SCHEDULE

Transition to make-to-order: November 30, 2028

Order acceptance: Until February 28, 2029

Production discontinuation: March 30, 2029

3 REASONS FOR DISCONTINUATION

Some parts of the module are now obsolete, and we will have difficulty to maintain our production system.

4 REPAIR SUPPORT

Repair support period: Until March 31, 2036 (for seven years after the discontinuation of production)

Please note that even during the repair support period, we may be unable to provide repair support if parts are no longer available.

5 ALTERNATIVE MODEL

Model to be discontinued		Alternative model	
Product	Model	Product	Model
MELSEC-Q series DeviceNet master/slave module	QJ71DN91	MELSEC iQ-R series DeviceNet master/slave module	RJ71DN91

For details on the specifications comparison and the precautions for transition, refer to the following.
