

Production Discontinuation of the MELSEC-F Series Simulation Input Switches And Programmable Controller Simulation Module

■Date of Issue

September 2023

■Relevant Models

FX2C-16SW-TB, FX2C-16SW-C, and FX3U-32MR-SET

Thank you for your continued support of Mitsubishi Electric programmable controllers, MELSEC-F series. This technical bulletin informs you that production of the following MELSEC-F series simulation input switches and programmable controller simulation module will be discontinued.

1 MODELS TO BE DISCONTINUED

Product	Model
Simulation input switch for terminal blocks	FX2C-16SW-TB
Simulation input switch for the connector type	FX2C-16SW-C
Programmable controller simulation module	FX3U-32MR-SET

2 SCHEDULE

- Start of make-to-order production: June 30, 2024
- Order acceptance: Until September 30, 2024
- Production discontinuation: December 31, 2024

We will finish accepting orders at the end of September 2024 and discontinue production when the production for accepted orders is finished.

3 REASON FOR DISCONTINUATION

We have difficulty to maintain the production system of those products due to the aging of the production facilities.

4 REPAIR ACCEPTANCE

Repair acceptance: Until December 31, 2031 (for seven years after the discontinuation of production)

(Note that, even during the repair acceptance period, the repair will not be supported if the parts run out of stock.)

5 ALTERNATIVE MODELS

There is no alternative model.
