2 SCHEDULE

- Start of make-to-order production: January 1, 2026
- Order acceptance: Until June 30, 2026
- Production discontinuation: December 31, 2026

We will not accept orders after June 30, 2026, and will stop production when the accepted orders are completed.

4 REPAIR SUPPORT

Repair support period: Until December 31, 2033 (for seven years after the discontinuation of production)

(Note that, even during the repair acceptance period, the repair will not be supported if the parts run out of stock.)

5 RECOMMENDED MODELS

Precautions on selection

The following table lists the models having the same specifications of the number of I/O points and output type as discontinued models.

Check the specifications in each manual before using these alternative models.

- It may be necessary to change programs or wiring depending on the commands that are used or the special extension device type.
- It may be necessary to change the entire system when an existing extension device is connected to an alternative model.

For details, refer to "Transition from MELSEC FX3G, FX3U, FX3UC Series to MELSEC iQ-F Series Handbook" (JY997D66201).
