

Production Discontinuation of the Programmable Controller Simulation Module

■Date of Issue

January 2025 (Ver. B: May 2026)

■Relevant Models

FX-I/O-DEMO2

Thank you for your continued support of Mitsubishi Electric micro programmable controllers, MELSEC-F series. This technical bulletin informs you that production of the following model and the related manuals will be discontinued. We appreciate your kind understanding.

1 MODEL TO BE DISCONTINUED

Product	Model
Programmable controller simulation module	FX-I/O-DEMO2

2 SCHEDULE

- Order acceptance: Until June 30, 2026
- Production discontinuation: December 31, 2026

We will not accept orders after June 30, 2026, and will stop production when the accepted orders are completed.

3 REASON FOR DISCONTINUATION

Our company will have difficulty maintaining the production system since the production of the components has been discontinued one after another.

4 REPAIR SUPPORT

Repair support period: Until December 31, 2033 (for seven years after the discontinuation of production)

(Note that, even during the repair acceptance period, the repair will not be supported if the parts run out of stock.)

5 ALTERNATIVE MODELS

There is no alternative model.

FAM-A-0100-B

REVISIONS

Version	Date of Issue	Revision
A	January 2025	First edition
B	May 2026	Addition of information regarding the discontinuation of the related manuals
