2. Schedule

Order acceptance : Through November 30, 2018
Production discontinuation: March 29, 2019

3. 生産中止理由

The demand for the relevant products has been extremely low due to the transition to new models. In addition, some of the parts used
The Company expects that it will be difficult to continue production of the product due to the difficulty in obtaining some of the parts used in the product.

4. Repair acceptance

Repair acceptance: Through March 31, 2026 (For 7 years after production discontinuation)

5. Information on parts supply

Due to recent changes in the market environment, it has become extremely difficult to supply the servo motors used in this model.

We would like to inform you that it has become difficult to repair our products with new servo motors.

In order to overcome the difficulty in supplying new servo motors, we would like to collect failed servo motors for reconditioning (repair) and would appreciate your cooperation in providing us with failed servo motors.

We would like to start operating J4 axis servo motors as soon as possible. Thank you for your understanding and cooperation.

Note 1: Please understand that we may not be able to repair a broken servo motor depending on the location of the problem.

Note 2: If it is difficult to provide new servo motors, we may provide refurbished servo motors.

We apologize for any inconvenience this may cause you, and ask for your understanding in maintaining stable service.

We will continue to strive to provide stable service, and we look forward to your continued patronage.
