# MELFA Technical News

BFP-A6079-0274

September 2020

**Subject:** Discontinuation of production of RP-ADH series industrial robots

**Applicable to:** RP-ADH series

Thank you for your continued support of Mitsubishi industrial robot “MELFA”.  
Production of the following “RP-ADH series” will be discontinued.

## 1. Models to be discontinued

RP -1 ADH, RP -3 ADH, RP -5 ADH

\*Special spec products of the same series are also included.

The option for CR1DA series controllers will be discontinued  
when production of RP-ADH series is discontinued.

## 2. Schedule

- Order acceptance: Through February 28,2021
- Production discontinuation: May 31,2021

## 3. Reasons for discontinuing production

Due to the production discontinuation of internal component of RP-ADH series ,  
continuous production will be difficult,

## 4. Repair acceptance

- Repair acceptance: Through May 31,2028  
(For 7 years after production discontinuation)

## 5. Alternative Models

None.

We will consult individually about technical proposals and replacement support.
