

MELFA Technical News

April 2022

Subject: Change the shape of NO1 arm cover B**Applicable to: RV-4FL/FRL series**

Thank you for your continued support of Mitsubishi industrial robot MELFA series.

This technical news will describes change about NO1arm cover B).

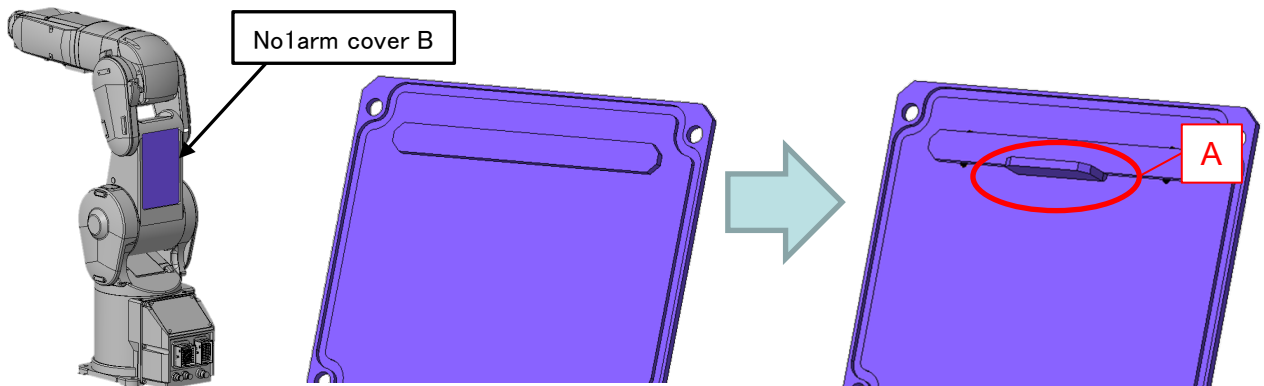

1. Target model

- RV-4FL series, RV-4FRL series

2. Content of change**(1) Shape change contents**

Change the shape of No1arm cover B as shown below.

This change will not affect the performance or functionality of the product.

**(2) Change Mounting procedure.**

Attach the convex shape of part “A” in the above figure so that it slips under the heat conductive sheet.

Please refer to the instruction manual (Robot arm setup & maintenance) for details.

3. Reason for change

Add a shape to support the heat conductive sheet pressed by NO1 arm cover B so that it will not fall off.

4. Schedule

This change will be made sequentially from May 2022.

※There may be cases when both new and old products exist in the distribution stage.
