

Report of the change from the CD-ROM instruction manual to the QR Code instruction manual

■ Date of issue

October 2026

■ Applicable models

MELFA FR/CR/ASSISTA series

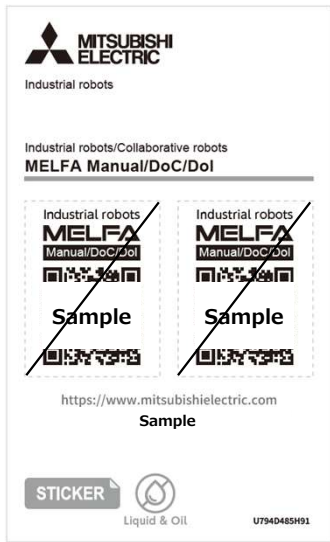

Thank you for your continued support of Mitsubishi Electric industrial robot "MELFA". This technical news describes the discontinuation of the CD-ROM instruction manual supplied with conventional products*1 and the introduction of the new QR Code instruction manual to be supplied with the products.

*1: Including optional products

1 Changes [1/2]

To reduce environmental impact and improve customer convenience, the instruction manual supplied with the products will be changed from the CD-ROM version to the QR Code version. The description of Declaration of Conformity (DoC) and Declaration of Incorporation (DoI) will be also added to the QR Code instruction manual.

By scanning the QR Code or entering the URL printed below the QR Code, users will be directed to a dedicated website that provides the instruction manuals of MELFA FR/CR/ASSISTA series, where DoC and DoI documents will be uploaded starting January 20, 2027

2 Timing of the change implementation

The QR Code instruction manual will be applied sequentially from the December 2025 production, and a transition to versions including DoC and DoI information is scheduled to begin with October 2026 production . There may be cases where products with the CD-ROM instruction manual or the QR Code instruction manual without the description regarding DoC/DoI exist in the distribution stage.

Even after this change, the CD-ROM may still be listed among the included items in the instruction manual. The instruction manual will be updated accordingly in future revisions.

3 Revision history

Version	Date of issue	Description of Revision
None	Dec.2025	First edition
A	Oct.2026	1. Added descriptions to the "Changes" section. 2. Updated the design of the QR code instruction manual to the DoC/DoI compliant version. 3. Updated the instructions for the dedicated website. 4. Added the revision history.
