

Notification of appearance change for the RH-2FRH flexible tube

■ Date of issue
September 2026

■ Applicable models
MELFA FR Series

Thank you for your continued support of Mitsubishi Electric industrial robot "MELFA".
This technical news is to inform you that the appearance of the RH-2FRH flexible tube will be changed.

1 Change Summary

Target:

The following components used for the internal cable of the RH-2FRH are subject to this change.

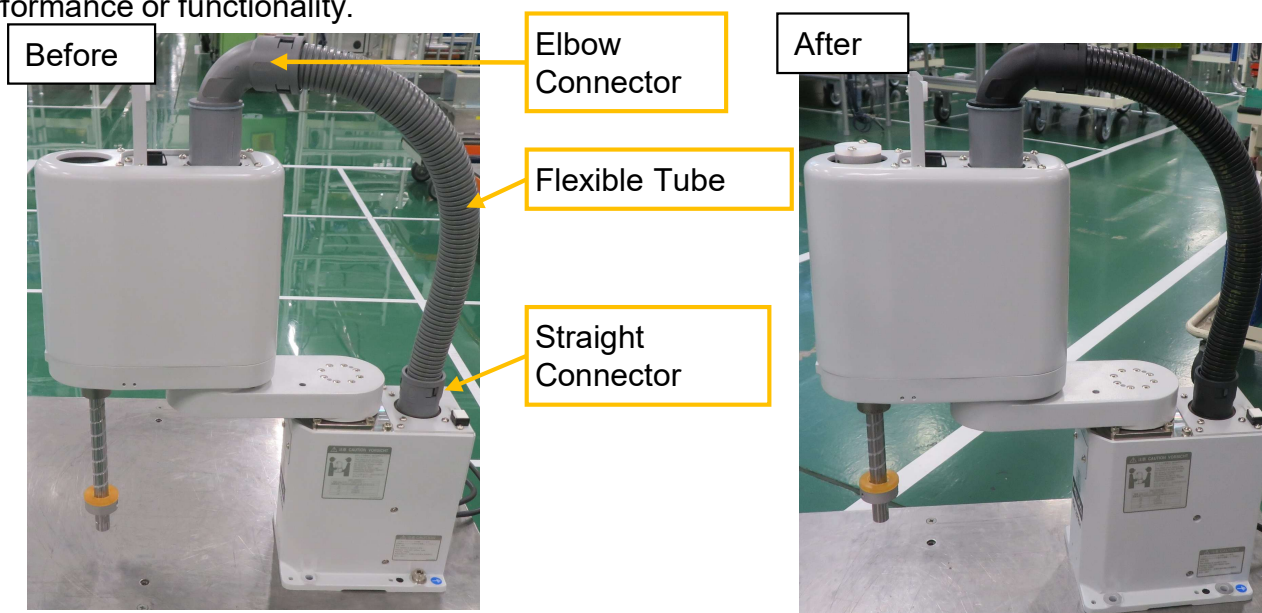

- Elbow Connector
- Straight Connector
- Flexible Tube

Change Details:

The color of the above components will be changed from the current gray to black.

Impact:

This change only affects the appearance (color) of the components and has no impact on their performance or functionality.

2 Change Schedule

This change will be applied progressively to products shipped on or after September 2026.
