Report of MELSOFT RT ToolBox3 Ver. 2.80J release

■ Date of issue
November 2026

■ Applicable models
MELFA AS/FR/CR/F/SQ/SD/S series

Thank you for your continued support of Mitsubishi Electric industrial robot "MELFA".
This technical news describes the new version 2.80J of RT ToolBox3.

1 Trial Version

With the RT ToolBox3 update installer, if Setup is executed without entering a Product ID during installation, the software is automatically installed as a trial version.

The trial version is based on the Standard edition. The following features are available, except for the online connection functions.
- Robot program creation and editing
- Offline program verification
- Simulation functions
- Other offline-related functions available in the Standard Edition

Trial versions of the Mini and Pro editions are not available. Only the Standard edition is offered as a trial version.
