[Title] Production discontinuation of CC-Link system
compact type remote I/O module

[Date of Issue] Mar., '05

[Relevant Models] AJ65SBTC4-16D

Thank you for your continued support of Mitsubishi programmable logic controllers, MELSEC-A series.

Production of the following MELSEC-A series models will be discontinued.

1. Models to be discontinued

Product	Model	Remarks
CC-Link system compact type remote I/O module	AJ65SBTC4-16D	Positive common (sink)/negative common (source) loading

2. Production discontinuation

- (1) Order deadline : Through August, 2005
- (2) Order acceptance : Through September, 2005

3. Reasons for discontinuing production

As case structure modification has been objected due to production improvement, the production for the conventional model indicated at section 1 (positive common (sink) / negative common (source) loading) will be discontinued and the alternative model indicated at section 5 will be produced.

4. Repair acceptance period

Repair acceptance : Through September, 2012 (For 7 years after production discontinuation)

5. Alternative models

Discontinued model	Alternative model	Restrictions on transition to alternative model *1
AJ65SBTC4-16D	AJ65SBTC4-16DN	Positive common (sink) is fixed.
	AJ65SBTC4-16DE	Negative common (source) is fixed.

*1 Performance and specifications other than the above-restricted items have no changes same as those in the conventional model.
